Statistical journals

THE POLISH STATISTICIAN 2020

(Polish-English version)

monthly edition

time of publication - January, February, March, April, May, June, July, August, September, October, November, December

ISSN 0043-518X Indeks 20 404/01-12

Vol. ca. 100 pages, size 166 x 238 mm

Price: PLN (paperback) 13,00

The periodical publishes scientific articles devoted to statistical theory and practice, presenting the results of original theoretical or analytical research using methods of mathematical statistics, descriptive statistics or econometrics. Review articles, popular science articles, reviews of scientific publications and other information studies are also included. The journal is addressed to people interested in the development of statistical theory and practice in the information system of the country, and especially to the scientific community of statisticians and economists, teachers, students, employees of official statistics and social institutions.

STATISTICS IN TRANSITION – NEW SERIES 2020

(English version)

quarterly edition

time of publication - February, June, August, November

ISSN 1234-7655 Indeks 20 405/01-04

Vol. ca. 180 pages, size 166 x 238 mm

Price: PLN (paperback) 21,00

An international journal published jointly by the Polish Statistical Association (PTS) and Statistics Poland (GUS), which sponsors this publication. Launched in 1993, it was issued twice a year until 2006; since then it appears – under a slightly changed title, Statistics in Transition new series – three times a year; and since 2014 as a regular quarterly journal. The journal provides a forum for exchange of ideas and experience amongst members of international community of statisticians, data producers and users, including researchers, teachers, policy makers and the general public.

STATISTICAL REVIEW 2020

(Polish and English version)

quarterly edition

time of publication - March, June, September, December

ISSN 0033-2372 Indeks 20 579/01-04

Vol. ca. 130 pages, size 166 x 238 mm

Price: PLN (paperback) 16,00

For several decades Statistical Review has enjoyed a great reputation in the scientist community and has played a formative role in the development of statistics and related fields. The periodical is addressed to and widely read and respected by a wide audience of researchers, teachers, students and practitioners of statistics, econometrics, operations research, mathematical economics and related fields. Along with reviewed scientific articles, the quarterly publishes also reports from conferences and scientific seminars, book reviews and profiles of prominent academics. The quarterly is the leading source of information about theoretical and empirical results in econometrics and statistics. It is also helpful for university teaching, especially at the master and doctoral level.

National accounts

Statistical analyses

GROSS DOMESTIC PRODUCT - REGIONAL ACCOUNTS IN THE YEARS 2016-2018

(Polish-English version)

annual edition

time of publication - December

ISSN 1733-8638 Indeks 20 902/00

Vol. ca. 60 pages, size 210 x 270 mm

Price: PLN (paperback) 20,00

Analysis of the level and dynamics of economic development of regions and subregions as well as changes in the structure of the economy in spatial approach. Analytical description containing the characteristics of territorial diversity of selected macroeconomic categories – gross domestic product, gross value added and disposable income of households. Methodological notes.

By: macroregions, regions, subregions, institutional sectors, kind of activity

NATIONAL ACCOUNTS BY INSTITUTIONAL SECTORS 2015-2018

(Polish-English version)

annual edition

time of publication – July

Indeks 20 100/00

Vol. ca. 300 pages, size 210 x 270 mm

Price: PLN (paperback) 20,00

The publication is the elaboration of Polish national accounts by institutional sectors. The publication includes detailed national accounts by institutional sectors for the years 2015-2018.

Data has been compiled according to European System of National and Regional Accounts in the European Union (ESA 2010) introduced by Regulation No 549/2013 of the European Parliament and of the Council (EU) of 21 May 2013.

The publication presents tables with non-financial accounts by the institutional sectors and by NACE rev.2. Tables contain data such as: gross domestic product (GDP), gross national income (GNI), households final consumption expenditure, net lending or net borrowing in general government sector. Subjects of hidden economy and illegal activity in national accounts and gross domestic product at purchasing power parity are also presented in this publication.

The publication contains the methodological solutions, definitions and terms used in national accounts, moreover graphs and the economic interpretation of the national economy. Tabular data sheet is included in a separate Excel file.

Statistical information

**QUARTERLY NATIONAL ACCOUNTS OF GROSS
DOMESTIC PRODUCTS 2015-2019**

(Polish-English version)

Statistical surveys methodology

COMBINED NOMENCLATURE EDITION 2020

(Polish version)

annual edition

time of publication – December

Vol. ca. 690 pages,

The Combined Nomenclature is the goods classification used within the EU for the purposes of foreign trade statistics. It is also used by Directorate General „Taxation and Customs Union” of the European Commission. The Combined Nomenclature is a development of the Harmonized Commodity Description and Coding System (HS). It is introduced annually by a regulation of the European Commission based on Council of the European Communities, Regulation No 2658/87 of 23 July 1987, on the tariff and statistical nomenclature and on the Common Customs Tariff. The CN is updated and published annually from 1 January to 31 December of the year following publication. It is used in statistics and records of foreign trade and is used for customs purposes (SAD, customs tariff).

PRODCOM LIST EDITION 2020

(Polish version)

annual edition

time of publication - December

Vol. ca. 220 pages,

PRODCOM list is a list of groupings of industrial products for which data are collected from individual business entities. The PRODCOM list is issued on the basis of Council Regulation (EEC) No 3924/91 of 19 December 1991 on the establishment of a Community survey of industrial production (OJ of the EC No L 374/1). The list is introduced annually by the Commission Regulation of the European Union with a period of application from 1 January of the year of introduction. The PRODCOM list included in the PRODPOL nomenclature used for product research in Poland ensures comparability of data on an international scale.

Business tendency**COINCIDENT AND LEADING COMPOSITE BUSINESS CYCLE INDICATOR, BUSINESS CYCLE CLOCK 2020**

(Polish version)

quarterly edition

time of publication - March, June, September, December

size 210 x 270 mm

The current work on experimental statistics involves analysis of business cycles based on composite (synthetic/aggregated) indexes providing synthetic descriptions of fluctuations throughout the economy. The coincident (COINC) and leading (LEAD) aggregated business tendency index have been estimated. The coincident (simultaneous) index reflects the current business tendency, while the leading business tendency index shows the future business tendency at a specific time in advance. The business cycle clock (a graph of business cycle phases) is a tool that facilitates the analysis of the business cycle. It is a graphic presentation of the place of various economic variables (aggregated or simple indices) in the business cycle. Its primary purpose is to illustrate the phenomenon in a mid-term time perspective. The clock is an illustration in the form of a coordinate system.
