

Objectives and actions underway:

☐ Towards an increased Impact Factor – indexation bases in which SiTns is already included:

- **SCOPUS**
- **•BASE - Bielefeld Academic Search Engine**
- **Central and Eastern European Online Library (CEEOL)**
- **Central European Journal of Social Sciences and Humanities (CEJSH)**
- **Current Index to Statistics (CIS)**
- **EconPapers**
- **ERIH Plus**
- **Google Scholar**
- **JournalTOCs**
- **OpenAIRE**
- **RePec**
- **WorldCat**
- **InfoBase Index (IF 3,86)**
- **IC Journals Master List**
- **BazEkon**
- **Zenodo (new)**
- **Publons (new)**

☐ Continuation to broaden the number of **international indexation** bases which involve SiTns

EDITOR-IN-CHIEF

Włodzimierz Okrasa, *University of Cardinal Stefan Wyszyński, Warsaw, and Statistics Poland*

EDITORIAL BOARD

Dominik Rozkrut, Co-Chairman), *Statistics Poland*

Czesław Domański (Co-Chairman), *University of Łódź, Poland*

Malay Ghosh, *University of Florida, USA*

Graham Kalton, *WESTAT, and University of Maryland, USA*

Mirosław Krzyśko, *Adam Mickiewicz University in Poznań, Poland*

Carl-Erik Särndal, *Statistics Sweden, Sweden*

Janusz L. Wywił, *University of Economics in Katowice, Poland*

Founder/Former Editor:

Jan Kordos, *Central Statistical Office, Poland*

Statistics in Transition new series

*An International Journal of the
Polish Statistical Association*

The latest issue:

STATISTICS IN TRANSITION <i>new series</i> <i>An International Journal of the Polish Statistical Association</i>	
CONTENTS	
From the Editor	563
Submission information for authors	567
Sampling methods and estimation	
Priyanka K. Mittal R., New approaches using exponential type estimator with cost modelling for population mean on successive waves	569
Das R., Verma V., Nath D. C., Bayesian estimation of measles vaccination coverage under ranked set sampling	589
Szymkowiak M., Młodak A., Wawrowski L., Mapping poverty at the level of subregions in Poland using indirect estimation	609
Valliammi K. R., Sedory S. A., Singh S. A., A new estimator of mean using double sampling	637
Research articles	
Kumar D., Malik M. R., Relations for moments of progressively Type-II right censored order statistics from Erlang-truncated exponential distribution	651
Singh H. P., Gorey S. M., A generalized randomized response model	669
Research Communicates and Letters	
Kalbarczyk M., Miazga A., Nicińska A., The inter-country comparison of the cost of children maintenance using housing expenditure	687
Szymański A., Rossa A., Improvement of fuzzy mortality models by means of algebraic method	701
Other articles: <i>Multivariate Statistical Analysis 2016, Łódź, Conference Papers</i>	
Jędrzejczak A., Kubacki J., Estimation of small area characteristics using multivariate Rao-Yu model	725
Conference Announcement	
2nd Congress of the Polish Statistics to be held on the occasion of the 100th Anniversary of the Central Statistical Office on July 10-12, 2018, in Warsaw	743
About the Authors	745
Acknowledgments to reviewers	749
Index of Authors	753
Volume 18, Number 4, December 2017	

News from *Indexation Bases*

SiTns has been upgraded on the Ministry of Science and Higher Education List – our journal has been awarded maximum number of points, 15 (previously it was 9 points).

SCOPUS:

„This is a professionally run journal of wide interest. An interesting feature is the brief introduction in each issue given by an editor. This will be seen by readers as evidence of close editorial scrutiny and enhance the credibility of the journal, besides being of interest in itself” - from the final evaluation report of the SCOPUS' Content Selection & Advisory Board (CSAB)

InfoBase Index:

„Evaluation of the [Statistics in Transition new series] journal for the year 2016-2017 has been completed and has been successfully indexed in InfoBase Index”. IB Factor of the journal for the year 2016-17 is 3,13.

New basis :

• Zenodo (new)

„Zenodo is a research data repository. It was created by [OpenAIRE](#) and [CERN](#) to provide a place for researchers to deposit datasets.^[1] It launched in 2013, allowing researchers in any subject area to upload files up to 50 GB.”

• Publons (new)

„Based on wikipedia, the publons is “a website and free service for academics to track, verify and showcase their peer review and editorial contributions across the world's academic ... Therefore, **publons**, Elsevier reviewer recognition, and similar platforms are all important, and appreciated by the relevant communities.”

RePEc – impact factors last 10 years

- see <http://ideas.repec.org/top/#seriesif> for details:
- Simple impact factor: 0.03 (0.03)
- Recursive impact factor: 0.01 (0.01)
- Discounted impact factor: 0.02 (0.02)
- Recursive discounted impact factor: 0.01 (0.01)
- h-index: 1 (1)
- Euclidian citation score: 3.02 (3.02)

Address on EconPapers:

<<http://econpapers.repec.org/article/csbstintr/>>

Page views (file downloads) on participating RePEc services (as of 07.05.2018):

- Last month: 61 (12)
- Previous month: 80 (23)
- Last 3 months: 215 (58)
- Last year: 1258 (493)
- Since start: 3905 (1313)
