* Data revised.

According to preliminary data, **the prices of sold production of industry** in April of 2010 were by 1.2% higher than in the previous month. The highest growth of prices was recorded in mining and quarrying (of 3.6%), of which in mining of metal ores (of 4.7%) and in mining of coal and lignite (of 3.8%). The prices were also increased in the section: water supply; sewerage, waste management and remediation activities (of 1.5%). Prices in manufacturing raised by 1.2%, of which in manufacture of coke and refined petroleum products (by 10.5%). Prices were raised also in manufacture of basic metals (by 4.3%), of pharmaceutical products (by 1.3%), of chemicals and chemical products (by 1.0%), of paper and paper products (by 0.7%), of motor vehicles, trailers and semi-trailers (by 0.5%), of textiles (by 0.4%), of electrical equipment, of metal products, of rubber and plastic products, of other transport equipment and printing and reproduction of recorded media (by 0.2% each), of other non-metallic mineral products, of products of wood, cork, straw and wicker, as well as leather and related products (by 0.1% each). Prices in manufacture of wearing apparel were at a level similar to the one recorded in the previous month. However, the drop was recorded in the prices of manufacturing of computer, electronic and optical products (by 0.1%), of machinery and equipment, of furniture (by 0.2% each), of food products (by 0.4%), tobacco products (by 0.5%) and of beverages (by 0.9%). Prices in section electricity, gas, steam and air conditioning supply were at a level similar to the one recorded in the previous month.

In April of 2010 the prices of sold production of industry were by 0.5% lower than a year earlier. The prices were lowered in manufacturing (by 2.1%). However, the price growth was recorded in sections: electricity, gas, steam and air conditioning supply (of 1.3%), water supply; sewerage, waste management and remediation activities (of 7.0%) as well as mining and quarrying (of 15.2%).

It is estimated that **the prices of construction and assembly production** in April of 2010 were at a level similar to the one recorded in the previous month. The prices in civil engineering as well as specialised construction activities remained at a level similar to the one record in March of 2010. However, prices were lowered in construction of buildings (of 0.1%).

In comparison to April of the previous year, the prices of construction and assembly production fell by 0.4% (against an increase of 0.7% a year earlier).
