* Data revised.

According to preliminary data, **the prices of sold production of industry** in September of 2010 were by 0.1% higher than in the previous month. Prices were higher in mining and quarrying (by 2.1%) as well as in section water supply; sewerage, waste management and remediation activities (by 1.0%). Prices in section electricity, gas, steam and air conditioning supply were at a level similar to the one recorded in the previous month. The drop prices was recorded in manufacturing of 0.1%, of which in manufacture of tobacco products of 1.8%. The drop prices was also recorded among other things in manufacture of metal products (of 1.0%), of electrical equipment (of 0.8%), of motor vehicles, trailers and semi-trailers (of 0.7%), of other non-metallic mineral products (of 0.6%) as well as of pharmaceutical products (of 0.5%). However, the growth was recorded in the prices among other things in manufacture of coke and refined petroleum products, of chemicals and chemical products, of machinery and equipment, of furniture (by 0.1% each), of beverages (by 0.2%), products of wood, cork, straw and wicker (by 0.3%), of food products (by 0.5%), basic metals (by 0.6%), of other transport equipment (by 1.2%) as well as of paper and paper products (by 1.3%).

In comparison to December of the previous year the prices of sold production of industry raised by 4.5%. The highest growth of prices was recorded in mining and quarrying (of 14.7%), of which in mining of metal ores (of 21.0%) and in mining of coal and lignite (of 14.3%). The prices in section water supply; sewerage, waste management and remediation activities raised by 5.0% as well as in section electricity, gas, steam and air conditioning supply by 4.0%. The growth of prices was recorded in manufacturing (by 3.7%), of which in manufacture of coke and refined petroleum products (by 29.1%). Prices were raised also among other things in manufacture of basic metals (by 16.9%), of paper and paper products (by 9.5%), of chemicals and chemical products (by 5.6%), other transport equipment (by 4.5%), of tobacco products (by 4.2%), of food products (by 3.3%), of pharmaceutical products (by 3.1%), of rubber and plastic products (by 2.9%), of products of wood, cork, straw and wicker (by 2.8%). However, the drop was recorded in the prices among other things in manufacture of furniture (by 1.1%), of motor vehicles, trailers and semi-trailers (by 1.7%), of machinery and equipment (by 1.8%), of computer, electronic and optical products (by 2.0%), of other non-metallic mineral products (by 3.4%), of electrical equipment (by 3.6%) as well as of wearing apparel (by 4.6%).

In September of 2010 the prices of sold production of industry were by 4.3% higher than a year earlier. The highest growth of prices was recorded in mining and quarrying (of 19.2%). The prices were also increased in sections: water supply; sewerage, waste management and remediation activities (of 5.3%), electricity, gas, steam and air conditioning supply (of 4.1%) as well as in manufacturing (of 3.2%).

It is estimated that **the prices of construction and assembly production** in September of 2010 were at a level similar to the one recorded in the previous month. The growth prices was recorded in civil engineering as well as in specialised construction (by 0,1% each). However, the prices in construction of buildings were of 0.1% lower than in the previous month.

In September of 2010 the prices of construction and assembly production were of 0.1% lower than in December of previous year and by 0.2% higher than in September of the previous year.
