* Data revised.

According to preliminary data, **the prices of sold production of industry** in 2013 with relation to previous year dropped of 1.3% (against growth by 3.3% in 2012). The highest drop prices - of 10.3% - was recorded in mining and quarrying. The prices in manufacturing were lower of 0.8%, and in section electricity, gas, steam and air conditioning supply (of 0.6%). The increase of prices was recorded in section water supply; sewerage, waste management and remediation activities (by 1.6%).

It is estimated that in December of 2013 the prices of sold production of industry were of 0.9% lower than in the previous year. The highest drop prices was recorded in mining and quarrying (of 9.7%), of which in mining of metal ores (of 16.8%) as well as in mining of coal and lignite (of 6.9%). The prices were also lower in section electricity, gas, steam and air conditioning supply (of 1.6%). The drop was also recorded in manufacturing (of 0.2%), of which the biggest in printing and reproduction of recorded media (of 2.4%). Lower than in December of previous year were also prices among other things in manufacture of coke and refined petroleum products (of 1.8%), of basic metals (of 1.6%), of computer, electronic and optical products (of 1.5%), of other non-metallic mineral products (of 1.4%), of electrical equipment (of 1.3%), of chemicals and chemical products (of 1.2%), of metal products as well as of furniture (of 0.8% each). The prices in manufacture of motor vehicles, trailers and semi-trailers reached the level similar to the one recorded in the previous month. Higher than in December of previous year were prices in manufacture of food products, of textiles (by 0.1% each), of other transport equipment (by 0.3%), of wearing apparel (by 0.6%), of rubber and plastic products (by 0.7%), of paper and paper products (by 1.0%), of beverages (by 1.4%), of products of wood, cork, straw and wicker (by 1.5%), of machinery and equipment (by 2.1%), of pharmaceutical products (by 5.5%), of leather and related products (by 6.6%). The growth was recorded in section water supply; sewerage, waste management and remediation activities by 2.8%.

It is estimated that **the prices of construction and assembly production** in 2013 were of 1.8% lower than in the previous year. The drop prices was recorded in the prices in construction of buildings (of 2.7%), in civil engineering (of 1.3%) as well as in specialised construction activities (of 1.1%).

The prices of construction and assembly production in December of 2013 were of 1.7% lower than the one recorded in the previous year. The drop was recorded in the prices in construction of buildings (of 2.4%), in civil engineering (of 1.6%) as well as in specialised construction activities (of 0.6%).
