

Index numbers of industrial and construction-assembly production in September 2014^{a)}

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	IX		I-IX ^{b)}	IX
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	116.5	104.2	103.4	122.4
mining and quarrying	110.7	101.2	94.6	105.5
manufacturing	117.8	104.9	104.8	127.5
electricity, gas, steam and air conditioning supply	107.6	96.6	95.2	87.0
water supply; sewerage waste management and remediation activities	107.3	107.0	103.3	121.1
CONSTRUCTION UNITS				
Total	119.8	105.6	105.5	124.3

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in August and reported data – in September.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in September of 2014, was by 4.2% higher than in the previous year (when an increase by 6.3% was recorded) and by 16.5% higher than in August of 2014. After eliminating the seasonal factors, sold production of industry reached the level higher by 1.9% than in the corresponding month of the previous year and by 1.0% higher than in August of 2014.

As compared to September of 2013, an increase in sold production was reported in 26 (out of 34) industry divisions, among others, in manufacture of furniture – by 20.1%, manufacture of pharmaceutical products – by 14.7%, manufacture of computer, electronic and optical products – by 11.7%, manufacture of basic metals – by 10.0%, manufacture of paper and paper products – by 8.4%, manufacture of rubber and plastic products – by 6.9%, manufacture of metal products – by 6.5% and manufacture of products of wood, cork, straw and wicker – by 6.5%. A drop in sold production of industry, as compared to September of 2013, was recorded in 8 divisions, among others, in manufacture of other transport equipment – by 13.3%, in electricity, gas, steam and air conditioning supply – by 3.4%, in manufacture of coke and refined petroleum products – by 1.9%, manufacture of food products – by 1.5%.

In the period January-September of 2014, sold production of industry was by 3.4% higher than in the corresponding period of the previous year which saw a 1.4% increase.

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in September of 2014 by 5.6% higher than a year before (against a decrease by 4.8% of September 2013) and by 19.8% higher than in August of 2014. After eliminating the seasonal factors, construction and assembly production reached the level by 3.8% higher than in September of the previous year and higher by 2.0% in comparison to August of 2014.

The production was higher than in September last year in entities dealing mainly with civil engineering by 14.1% and entities involved in specialised construction activities by 10.5%. In comparison to 2013 a decrease in production was noted in entities whose basic type of activity is the construction of buildings – by 7.1%.

In comparison to August of this year the production has increased in all sections of construction. The entities whose basic type of activity is civil engineering – by 26.4%, in enterprises dealing mainly with specialised construction activities – by 17.5% and in entities specialised in construction of buildings – by 13.8%.

In the period January-September of 2014, construction and assembly production was by 5.5% higher than in the corresponding period of the previous year, when a decline was noted by 15.6%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
