

Index numbers of industrial and construction-assembly production in April 2015^{a)}

In April of 2015, **sold production of industry** was by 2.3% higher than in April of 2014, whereas an increase of 8.5% was reported in **construction-assembly production**. In the period January-April of 2015, sold production of industry was by 4.4% higher than in the corresponding period of 2014 which saw a 4.8% increase, whereas construction-assembly production was by 5.1% higher than in the corresponding period of 2014 which saw a 10.5% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	IV		I-IV ^{b)}	IV
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	91.9	102.3	104.4	116.9
mining and quarrying.....	92.2	104.3	99.6	97.2
manufacturing.....	92.1	102.5	105.5	120.9
electricity, gas, steam and air conditioning supply.....	88.1	98.1	96.6	93.9
water supply; sewerage waste management and remediation activities.....	99.9	104.6	103.2	114.6
CONSTRUCTION UNITS				
Total	108.7	108.5	105.1	88.5

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in March and reported data – in April.

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in April of 2015 by 8.5% higher than a year before (when an increase was recorded by 12.2%) and by 8.7% in comparison to March of 2015. After eliminating the seasonal factors, construction and assembly production reached the level by 7.4% higher than in April of 2014 and by 1.3% higher in comparison to March of 2015.

In relation to April of 2014, an increase in production was recorded in entities specializing in civil engineering – by 31.4% and in entities dealing mainly with specialised construction activities – by 0.3%, while a decrease in production occurred in entities whose basic type of activity is the construction of buildings – by 4.7%.

In comparison to March of 2015, an increase in production was recorded in entities whose basic type of activity is civil engineering – by 35.5% and a decrease in entities performing specialised construction activities – by 7.4% and in enterprises specialized in the construction of buildings – by 0.8%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
