

## Index numbers of industrial and construction-assembly production in October 2015<sup>a)</sup>

In October of 2015, **sold production of industry** was by 2.4% higher than in October of 2014, whereas a decrease of 5.2% was reported in **construction-assembly production**. In the period January-October of 2015, sold production of industry was by 4.3% higher than in the corresponding period of 2014 which saw a 3.3% increase, whereas construction-assembly production was by 3.5% higher than in the corresponding period of 2014 which saw also a 3.5% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	X		I-X <sup>b)</sup>	X
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
<b>INDUSTRIAL UNITS</b>				
<b>Total</b> .....	<b>102.0</b>	<b>102.4</b>	<b>104.3</b>	<b>129.8</b>
mining and quarrying.....	104.2	99.2	101.4	107.2
manufacturing.....	101.1	102.9	105.2	134.9
electricity, gas, steam and air conditioning supply.....	112.6	100.3	96.4	100.6
water supply; sewerage waste management and remediation activities.....	97.6	96.8	102.5	117.8
<b>CONSTRUCTION UNITS</b>				
<b>Total</b> .....	<b>104.2</b>	<b>94.8</b>	<b>103.5</b>	<b>126.3</b>

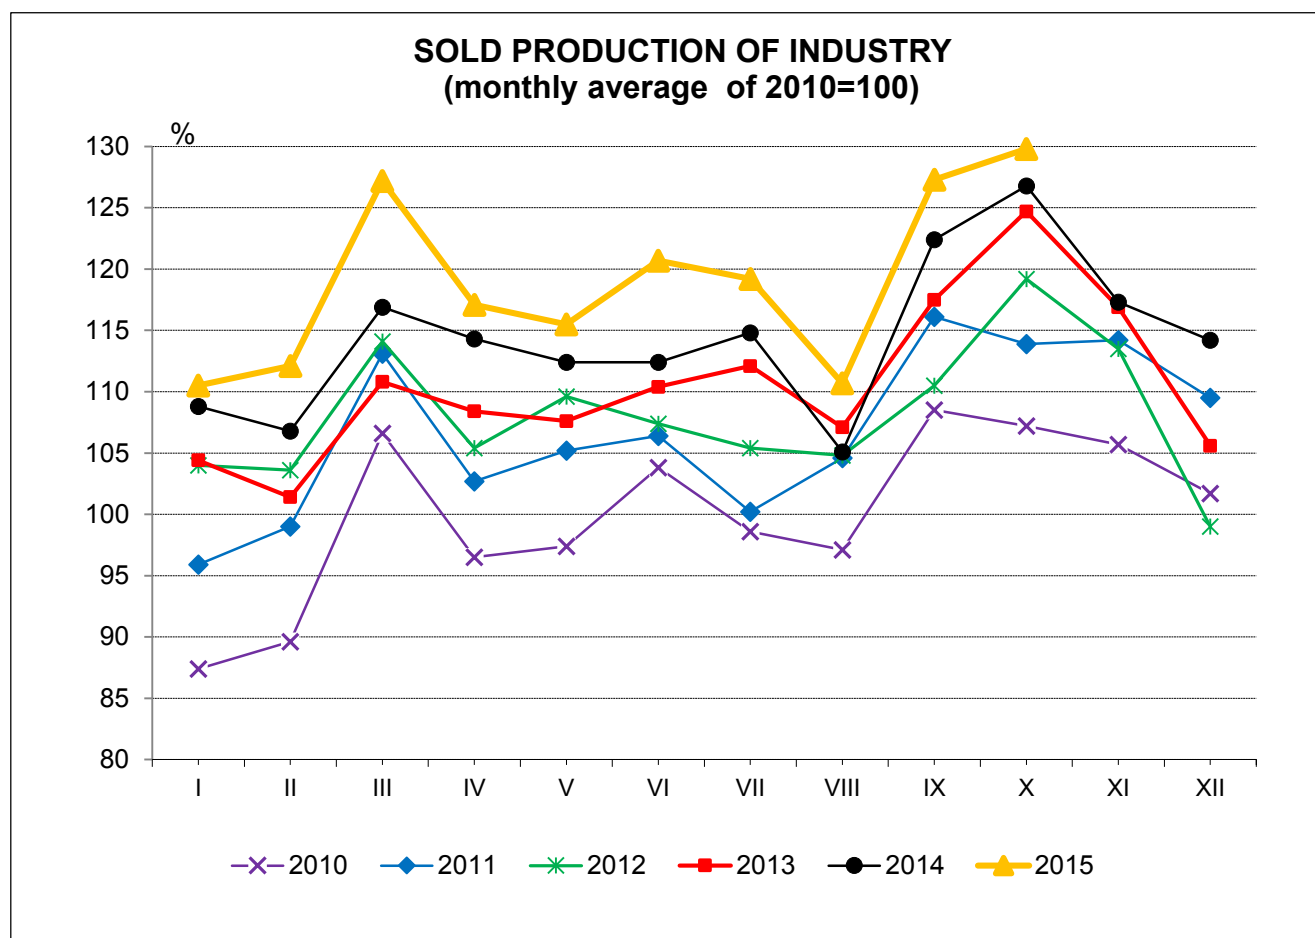

<sup>a)</sup> Reported data; comprise enterprises employing over 9 persons.

<sup>b)</sup> Data including final information on production and prices in September and reported data – in October.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in October of 2015, was by 2.4% higher than in the previous year (when an increase of 1.7% was recorded) and by 2.0% higher than in September of 2015. After eliminating the seasonal factors, sold production of industry reached the level higher by 4.7% than in the corresponding month of 2014 and by 0.8% higher as compared to September of 2015.

As compared to October of 2014, an increase in sold production was reported in 23 (out of 34) industry divisions, among others, in manufacture of beverages – by 10.9%, manufacture of computer, electronic and optical products – by 8.4%, printing and reproduction of recorded media – by 6.6%, manufacture of motor vehicles, trailers and semi-trailers and manufacture of metal products – by 5.2% each, manufacture of chemicals and chemical products – by 4.5%, manufacture of furniture – by 3.8%, manufacture of rubber and plastic products – by 3.7%. A drop in sold production of industry, as compared to October of 2014, was recorded in 11 divisions, among others, in manufacture of coke and refined petroleum products – by 6.8%, manufacture of wearing apparel – by 3.3%, manufacture of pharmaceutical products – by 2.5% and manufacture of other non-metallic mineral products – by 2.1%.

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in October of 2015 by 5.2% lower than a year before (when a decrease was recorded by 1.0%) and by 4.2% higher in comparison to September of 2015. After eliminating the seasonal factors, construction and assembly production reached the level by 2.3% lower than in October of 2014 and by 1.6% in comparison to September of 2015.

In relation to October of 2014, a decrease in production was recorded in all divisions of construction: in entities whose basic type of activity is the construction of buildings – by 7.3%, in entities specialising in civil engineering – by 6.2% and in entities dealing mainly with specialised construction activities – by 0.2%.

In comparison to September of 2015, an increase in production was recorded in entities specialised in the construction of buildings – by 21.1%, a decrease was noted in enterprises whose basic type of activity is civil engineering – by 3.2% and in entities dealing mainly with specialised construction activities – by 2.9%

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
