

Index numbers of industrial and construction-assembly production in January 2016^{a)}

In January of 2016, **sold production of industry** was by 1.4% higher than in January of 2015 which saw an increase of 1.6%, whereas a decrease of 8.6% was reported in **construction-assembly production**.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	I 2016		
	previous month = 100	corresponding period of previous year = 100	monthly average of 2010 = 100
INDUSTRIAL UNITS			
Total	92.0	101.4	112.1
incl.:			
minig and quarrying	73.3	101.0	77.5
manufacturing	92.6	101.8	114.2
electricity, gas, steam and air conditioning supply	96.2	97.6	112.0
water supply; sewerage waste management and remediation activities	88.6	102.2	111.4
CONSTRUCTION UNITS			
Total	31.9	91.4	49.7

^{a)} Reported data; comprise enterprises employing over 9 persons.

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in January of 2016 by 8.6% lower than a year before and by 68.1% in comparison to December of 2015. After eliminating the seasonal factors, construction and assembly production reached the level by 7.0% lower in comparison to January of 2015 and by 4.8% in comparison to December of the previous year.

In relation to January of 2015 a decrease in production was recorded in all divisions of construction: in entities specializing in civil engineering – by 10.5%, in entities dealing mainly with specialised construction activities – by 9.3% and in entities whose basic type of activity is the construction of buildings – by 6.7%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
