

Index numbers of industrial and construction-assembly production in June 2016^{a)}

In June of 2016, **sold production of industry** was by 6.0% higher than in June of 2015, whereas a decrease of 13.0% was reported in **construction-assembly production**. In the period January-June of 2016, sold production of industry was by 4.4% higher than in the corresponding period of 2015 which saw a 4.6% increase, whereas construction-assembly production was by 11.9% lower than in the corresponding period of 2015 which saw a 1.0% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	VI		I-VI ^{b)}	VI
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	107.3	106.0	104.4	127.9
mining and quarrying.....	108.9	95.2	93.2	93.4
manufacturing.....	107.8	107.2	105.6	136.2
electricity, gas, steam and air conditioning supply.....	100.1	97.1	97.6	74.7
water supply; sewerage waste management and remediation activities.....	103.5	101.4	102.7	125.1
CONSTRUCTION UNITS				
Total	113.4	87.0	88.1	92.1

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in May and reported data – in June.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in June of 2016, was by 6.0% higher than in the previous year (when an increase of 7.4% was recorded) and by 7.3% higher than in May of 2016. After eliminating the seasonal factors, sold production of industry reached the level higher by 3.6% than in the corresponding month of 2015 and by 0.7% higher as compared to May of 2016.

As compared to June of 2015, an increase in sold production was reported in 25 (out of 34) industry divisions, among others, in manufacture of pharmaceutical products – by 25.8%, manufacture of computer, electronic and optical products – by 18.7%, manufacture of other transport equipment – by 18.4%, manufacture of textiles – by 17.2%, manufacture of motor vehicles, trailers and semi-trailers – by 17.0%, manufacture of furniture – by 16.4%, manufacture of metal products – by 12.6%, manufacture of beverages – by 10.8%, manufacture of rubber and plastic products – by 9.5%. A drop in sold production of industry, as compared to June of 2015, was recorded in 9 divisions, among others, in repair and installation of machinery and equipment – by 26.1%, mining of coal and lignite – by 14.9% (an increase of 17.4% in the previous year), manufacture of coke and refined petroleum products – by 7.4% and manufacture of electrical equipment – by 3.9%.

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in June of 2016 by 13.0% lower than a year before and by 13.4% higher in comparison to May of 2016. After eliminating the seasonal factors, construction and assembly production reached the level by 13.0% lower than in the corresponding month of the previous year and by 3.7% in comparison to May of 2016.

In relation to June of 2015 a decrease in production was recorded in all divisions of construction: in entities specializing in civil engineering – by 17.9%, in entities dealing mainly with specialised construction activities – by 11.0% and in entities whose basic type of activity is the construction of buildings – by 9.1%.

In relation to May of 2016 an increase in production was recorded in all divisions of construction: in entities specializing in civil engineering – by 14.7%, in entities whose basic type of activity is the construction of buildings – by 13.5% and in entities dealing mainly with specialised construction activities – by 11.5%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
