

Index numbers of industrial and construction-assembly production in October 2016^{a)}

In October of 2016, **sold production of industry** was by 1.3% lower than in October of 2015, whereas a decrease of 20.1% was reported in **construction-assembly production**. In the period January-October of 2016, sold production of industry was by 3.1% higher than in the corresponding period of 2015 which saw a 4.3% increase, whereas construction-assembly production was by 15.0% lower than in the corresponding period of 2015 which saw a 3.5% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	X		I-X ^{b)}	X
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	97.5	98.7	103.1	128.1
mining and quarrying.....	89.5	92.5	94.3	99.0
manufacturing.....	96.6	99.5	104.2	134.2
electricity, gas, steam and air conditioning supply.....	116.4	91.3	95.8	91.9
water supply; sewerage waste management and remediation activities.....	98.7	103.9	103.3	122.5
CONSTRUCTION UNITS				
Total	98.4	79.9	85.0	100.9

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in September and reported data – in October.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in October of 2016, was by 1.3% lower than in the previous year (when an increase of 2.4% was recorded) and by 2.5% lower than in September of 2016. After eliminating the seasonal factors, sold production of industry reached the level higher by 1.3% than in the corresponding month of 2015 and by 0.9% lower as compared to September of 2016.

As compared to October of 2015, a decrease in sold production was reported in 20 (out of 34) industry divisions, among others, in manufacture of beverages – by 16.0%, mining of coal and lignite – by 10.7%, in electricity, gas, steam and air conditioning supply – by 8.7%, manufacture of coke and refined petroleum products – by 7.8%, manufacture of basic metals – by 5.3%, manufacture of machinery and equipment – by 4.3%, manufacture of chemicals and chemical products – by 3.9%. An increase in sold production of industry, as compared to October of 2015, was recorded in 14 divisions, among others, in manufacture of motor vehicles, trailers and semi-trailers – by 7.0%, manufacture of textiles – by 5.3%, manufacture of other transport equipment – by 5.1%, manufacture of food products – by 4.8%, manufacture of furniture – by 4.4%.

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in October of 2016 by 20.1% lower than a year before and by 1.6% in comparison to September of 2016. After eliminating the seasonal factors, construction and assembly production reached the level by 17.5% lower than in October of 2015 and by 3.0% in comparison to September of 2016.

In relation to October of 2015, a decrease in production was recorded in all divisions of construction: in entities whose basic type of activity is the construction of buildings – by 26.2%, in entities dealing mainly with specialised construction activities – by 22.9% and in entities specialising in civil engineering – by 13.1%

In comparison to September of 2016, a decrease in production was recorded in entities dealing mainly with specialised construction activities – by 15.8% and in entities specialised in the construction of buildings – by 2.2%, while an increase was noted in enterprises whose basic type of activity is civil engineering – by 8.7%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
