Index of value of sold production of own products by producers

The value of sold production of own products by producers in 2017 increased in relation to the previous year by 9.2% and amounted to 1 115 410 342 thousand zł.

Increase of the value of sold production of products in relation to the previous year: 9.2%

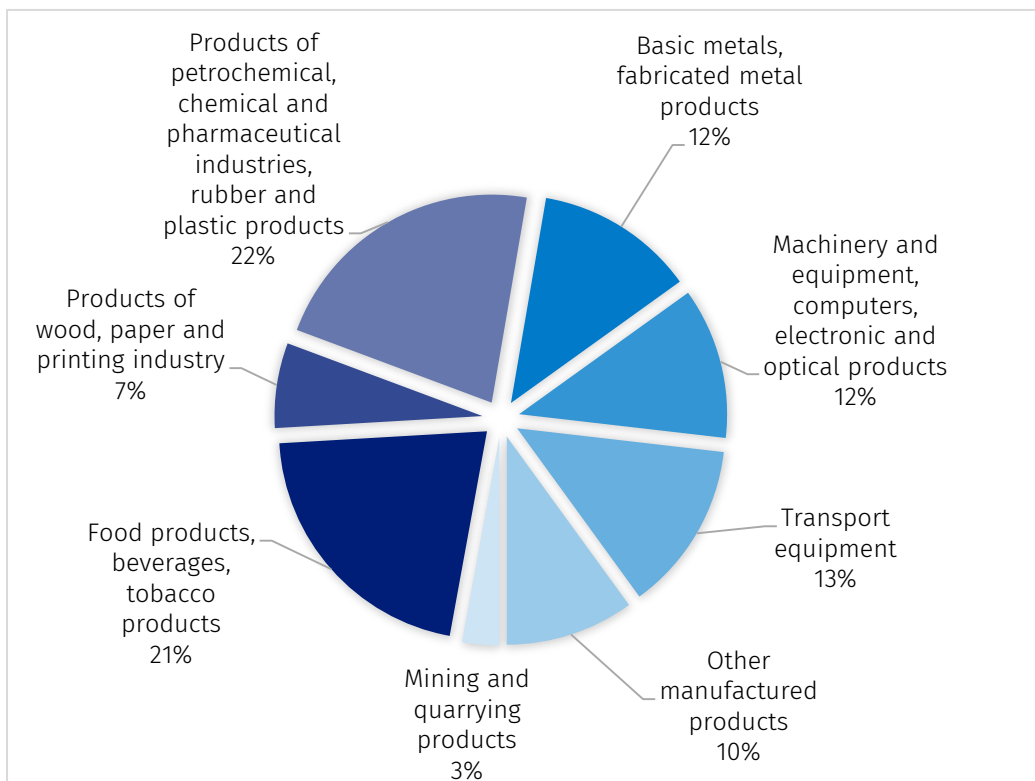

Sold production of industrial products

The total value of sold production of own products by producers, classified to the sections: Products of mining and quarrying and Manufactured products, amounted to 1 115 410 342 thousand PLN and was higher than in the previous year by 9.2%.

The following divisions had the largest share in the total value of sold production of products: Food products – 17.0%, Motor vehicles, trailers and semi-trailers – 11.9%, Coke, briquette and similar solid fuels from coal and peat, refined petroleum products – 7.9%, Basic metals – 6.3%, Fabricated metal products, except machinery and equipment – 6.1%. The lowest was the share in the total value of sold production of the divisions: Wearing apparel, leather and related products, Metal ores and Crude petroleum and natural gas – each lower than 0.5%.

Food products had the largest share in the value of sold production of products (17.0%)

Graph 1. Share in the value of sold production in 2017, by divisions of the Polish Classification of Goods and Services (PKWiU 2015)

In relation to the previous year, an increase in the value of sold production was recorded in 26 (out of 28) divisions, among others for Basic metals (by 22.2%), Fabricated metal products, except machinery and equipment (by 18.4%), Coke, briquette and similar solid fuels from coal and peat, refined petroleum products (by 15.8%), Wearing apparel (by 15.6%), Other

transport equipment (by 14.9%), Other products of mining and quarrying (by 13.5%), Hard coal and lignite (by 13.0%). Decrease in the value of sold production of products in comparison to 2016 occurred in the divisions: Crude petroleum and natural gas, and Metal ores.
