

Index numbers of construction and assembly production in November 2019^{a)}

23.12.2019

95.3

Index number of construction and assembly production as compared to November of 2018

According to preliminary data construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in November 2019 by 4.7% lower than a year before and by 0.4% lower compared with October this year (against increases accordingly by 17.0% and by 0.3% the year before).

In the period January-November 2019 construction and assembly production was by 2.8% higher in comparison to the same period of 2018, which saw an increase of 19.7%.

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	XI 2019		I-XI 2019 ¹
	X 2019=100	XI 2018=100	I-XI 2018=100
CONSTRUCTION	99.6	95.3	102.8
Construction of buildings ^Δ	98.5	105.7	102.7
Civil engineering works ^Δ	102.9	93.0	102.4
Specialised construction activities	94.9	87.2	103.6

In comparison to October 2019 decrease in the value of construction and assembly production was recorded

^Δ Abbreviated form according PKD 2007.

¹ Data including final information on production and prices in October and reported data in November.

^{a)} Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In comparison to November 2018 an increase in the value of construction and assembly production was recorded in entities dealing mainly with construction of buildings (5.7%). While the value of construction and assembly was lower in entities whose basic type of activity were civil engineering works (7.0%) and performing specialised construction activities (12.8%).

Compared with October 2019, increases (2.9%) in the value of works carried out were noted in entities whose basic type of activity were civil engineering works. Decreases have noticed in the other two divisions of construction, i.e. in entities whose basic type of activity was construction of buildings by 1.5% and in entities performing specialised construction activities by 5.1%.

In the period January-November 2019 the highest increase in the value of construction and assembly production (3.6%) was recorded in entities performing specialised construction activities. Increases were also noted in entities dealing mainly with construction of buildings (2.7%) and whose basic type of activity were civil engineering works (2.4%).

Value of construction and assembly production including investment works in November 2019 was by 1.4% lower than in the corresponding period of 2018 (against an increase by 10.9% the year before), whereas works with a restoration character decreased by 9.7% (against an increase by 27.5% the year before).

In the period January-November 2019 an increase in the value of investment works was by 3.5% higher than in the corresponding period of 2018 and works with a restoration character - by 1.7% (against corresponding increases by 17.2% and 23.9% in 2018).

In November this year in comparison to November 2018 an increase in the value of construction and assembly production was noted among entities dealing mainly with construction of buildings

Value of investment works in the first eleven months of 2019 increased by 3.5% y/y

Chart 1. Index numbers of construction and assembly production (constant prices) - average monthly base 2015=100²

² Reported data for November 2019.

Index number of construction and assembly production in November 2019 (in constant prices) compared to the average monthly value of 2015 was 138.6.

After eliminating the seasonal factors, construction and assembly production reached the level by 1.0% higher than in November 2018 and by 3.0% higher in comparison to October 2019.
