

Index numbers of construction and assembly production in December 2021¹

21.01.2022

103.1

Index number of construction and assembly production as compared to December 2020

According to preliminary data, in December 2021, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was by 3.1% higher than in the corresponding period of 2020 (an increase of 3.4% the year before) and by 22.9% higher compared to November 2021 (an increase of 34.4% the year before).

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	12 2021		01-12 2021 ²
	11 2021=100	12 2020=100	01-12 2020=100
CONSTRUCTION	122.9	103.1	103.2
Construction of buildings ^Δ	117.5	101.7	98.8
Civil engineering works ^Δ	127.8	102.3	102.8
Specialised construction activities	120.6	106.6	109.3

^Δ Abbreviated form according PKD 2007.

Sales of construction and assembly production in December 2021, compared to the corresponding period of 2020, increased in all division of construction, in entities performing specialised construction activities by 6.6%, dealing mainly with civil engineering works by 2.3% and in entities whose basic type of activity was construction of buildings by 1.7%.

¹ Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

² Data including final information on production and prices in November and reported data in December.

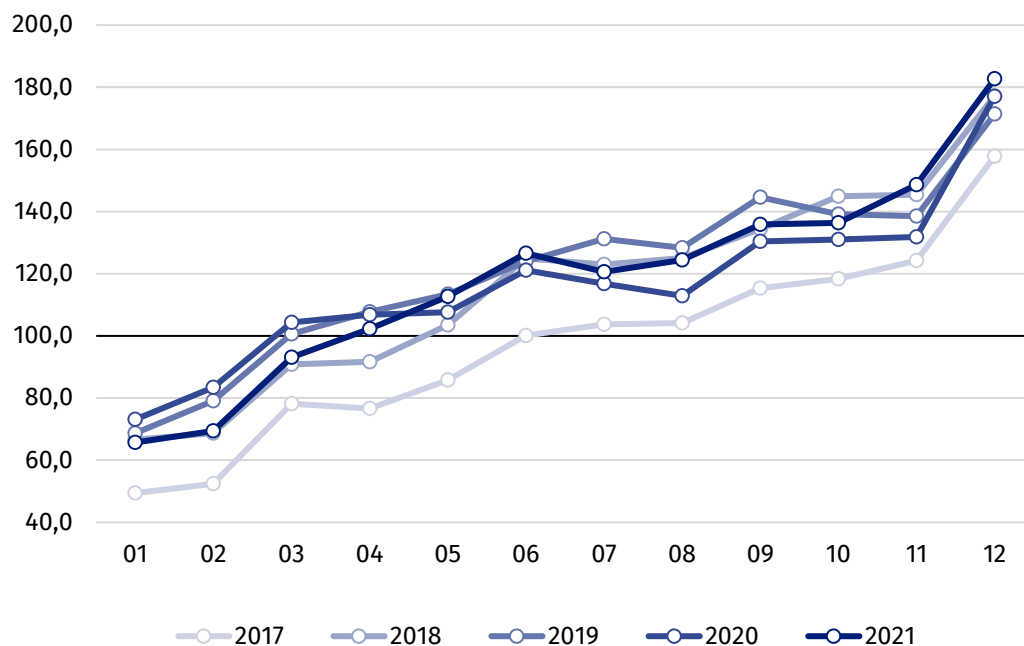

Compared to November 2021, an increase in the value of works carried out was noted in entities dealing mainly with civil engineering works of 27.8%, whose basic type of activity was specialised construction activities of 20.6%. In entities dealing mainly with construction of building the value increased by 17.5%.

In the period of January-December 2021, in relation to the same period of 2020 year, an increase in the value of construction and assembly production was noted in entities performing specialised construction activities of 9.3% and in dealing mainly with civil engineering works of 2,8%, whereas a decrease was recorded in entities whose basic type of activity was construction of buildings of 1.2%.

Sales of construction and assembly production in December 2021, compared to the corresponding period of 2020, was at the similar level for investment works, whereas works with restoration character increased by 8.4% (against an increase of 7.7% and a decrease of 3.1% the year before).

In the period of January-December 2021, in relation to the same period of the previous year, there was a decrease in the value of investment works of 1.3% and an increase works with a restoration character by 10.7% (whereas in 2020 decreases were noted of 1.1% and of 4.0%).

Chart 1. Index numbers of construction and assembly production (constant prices; average monthly base 2015=100)³

Index number of construction and assembly production in December 2021 (in constant prices), compared to the average monthly value of 2015, was 182.7.

After eliminating the seasonal factors, construction and assembly production reached the level by 1.1% higher than in the corresponding month 2020 and by 5.6% lower in comparison to November 2021.
