

# Index numbers of construction and assembly production in April 2019<sup>a)</sup>

23.05.2019 r.

 **117.4**

Index number of construction and assembly production as compared to April of 2018

**In April of 2019 value of construction and assembly production in constant prices increased, both in a monthly and increasing basis, compared to corresponding periods of the previous year.**

According to preliminary data, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in April of 2019 by 17.4% higher than a year before and by 7.1% compared with March this year (against an increases accordingly by 19.7% and 1.0% the year before). In the period January-April of 2019 construction and assembly production was by 11.0% higher in comparison to the same period of 2018, which saw an increase of 24.8%.

The increase in construction and assembly production is maintained

**Table 1. Index numbers of construction and assembly production (constant prices)**

| SPECIFICATION                          | IV 2019      |              | I-IV 2019 <sup>1</sup> |
|--|--------------|--------------|------------------------|
|  | III 2019=100 | IV 2018=100  | I-IV 2018=100          |
| <b>CONSTRUCTION</b>                    | <b>107.1</b> | <b>117.4</b> | <b>111.0</b>           |
| Construction of buildings <sup>Δ</sup> | 105.8        | 103.9        | 101.0                  |
| Civil engineering works <sup>Δ</sup>   | 106.2        | 132.7        | 123.8                  |
| Specialised construction activities    | 110.1        | 118.2        | 110.6                  |

<sup>Δ</sup> Abbreviated form according PKD 2007.

<sup>1</sup> Data including final information on production and prices in March and reported data in April.

<sup>a)</sup> Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In comparison to April of 2018 an increase value of construction and assembly production was recorded in entities whose basic type of activity were civil engineering works (32.7%). Increases have noticed in entities performing specialised construction activities (18.2%) and in entities dealing mainly with the construction of building (3.9%).

Compared with March of 2019 an increase of value works carried out was noted in all divisions of construction: in entities performing specialised construction activities – by 10.1%, dealing mainly with civil engineering works - by 6.2 and in entities whose basic type of activity was the construction of building – by 5.8%.

In the period January-April of 2019 the highest increase (23.8%) was recorded in entities whose basic type of activity were civil engineering works. Increases have noticed in entities performing specialised construction activities (10.6%) and dealing mainly with the construction of buildings (1.0%).

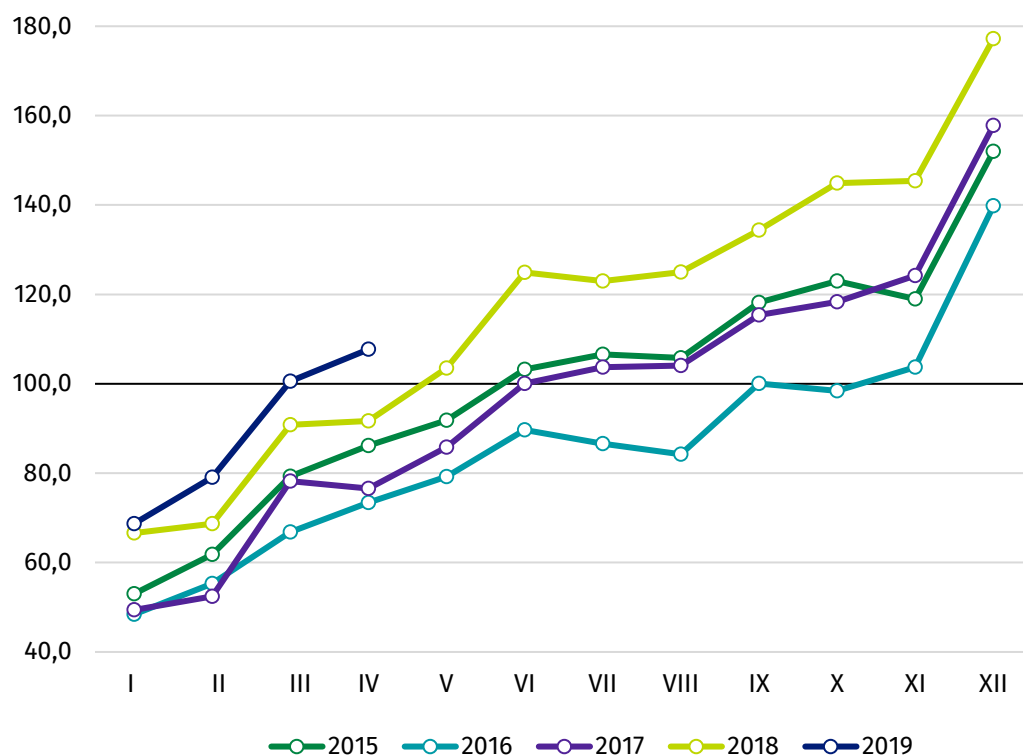

Value of construction and assembly production including investment works in April of 2019 was by 14.1% higher than in the corresponding period of 2018 (against an increase by 21.2% the year before), whereas works with a restoration character increased by 24.1% (against an increase by 16.9% the year before).

In the period January-April of 2019 an increase of value investment works was by 8.8% higher than in the corresponding period of 2018 and works with a restoration character by 15.3% (against corresponding increases by 28.4% and 18.1% of 2018).

In April of this year in comparison to April of 2018 the highest increase value of construction and assembly production was noted among entities whose basic type of activity were civil engineering works

Value of investment works in the first four months of 2019 increased by 8.8% y/y

**Chart 1. Index numbers of construction and assembly production (constant prices) - average monthly base 2015=100<sup>2</sup>**

<sup>2</sup> Reported data for April of 2019.

Index number of construction and assembly production in April of 2019 (in constant prices) compared to the average monthly value of 2015 was 107.7.

After eliminating the seasonal factors, construction and assembly production reached the level by 14.3% higher than in April of 2018 and by 0.3% higher in comparison to March of 2019.
