

Index numbers of construction and assembly production in July 2019^{a)}

21.08.2019

106.6

Index number of construction and assembly production as compared to July of 2018

In July of 2019 value of construction and assembly production in constant prices increased, both in a monthly and increasing basis, compared to corresponding periods of the previous year.

According to preliminary data, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in July of 2019 by 6.6% higher than a year before and by 5.8% higher compared with June this year (against accordingly an increase by 18.7% and decrease by 1.5% the year before). In the period January-July of 2019 construction and assembly production was by 6.8% higher in comparison to the same period of 2018, which saw an increase of 21.4%.

In comparison to June of 2019 was recorded the increase value of construction and assembly production

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	VII 2019		I-VII 2019 ¹
	VI 2019=100	VII 2018=100	I-VII 2018=100
CONSTRUCTION	105.8	106.6	106.8
Construction of buildings ^Δ	94.9	97.1	102.2
Civil engineering works ^Δ	116.6	119.4	111.4
Specialised construction activities	101.5	97.2	106.4

^Δ Abbreviated form according PKD 2007.

¹ Data including final information on production and prices in June and reported data in July.

^{a)} Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In comparison to July of 2018 an increase value of construction and assembly production was recorded in entities whose basic type of activity were civil engineering (19.4%). Decreases have noticed in entities dealing mainly with the construction of building (2.9%) and in entities performing specialised construction activities (2.8%).

Compared with June of 2019 an increases of value works carried out were noted in entities dealing mainly with civil engineering works - by 16.6%, and in entities performing specialised construction activities (1.5%), whereas a decrease by 5.1% was noted in entities whose basic type of activity was the construction of building.

In the period January-July of 2019 the highest increase value of construction and assembly production (11.4%) was recorded in entities whose basic type of activity were civil engineering works. Increases have noticed in entities performing specialised construction activities (6.4%) and dealing mainly with the construction of building (2.2%).

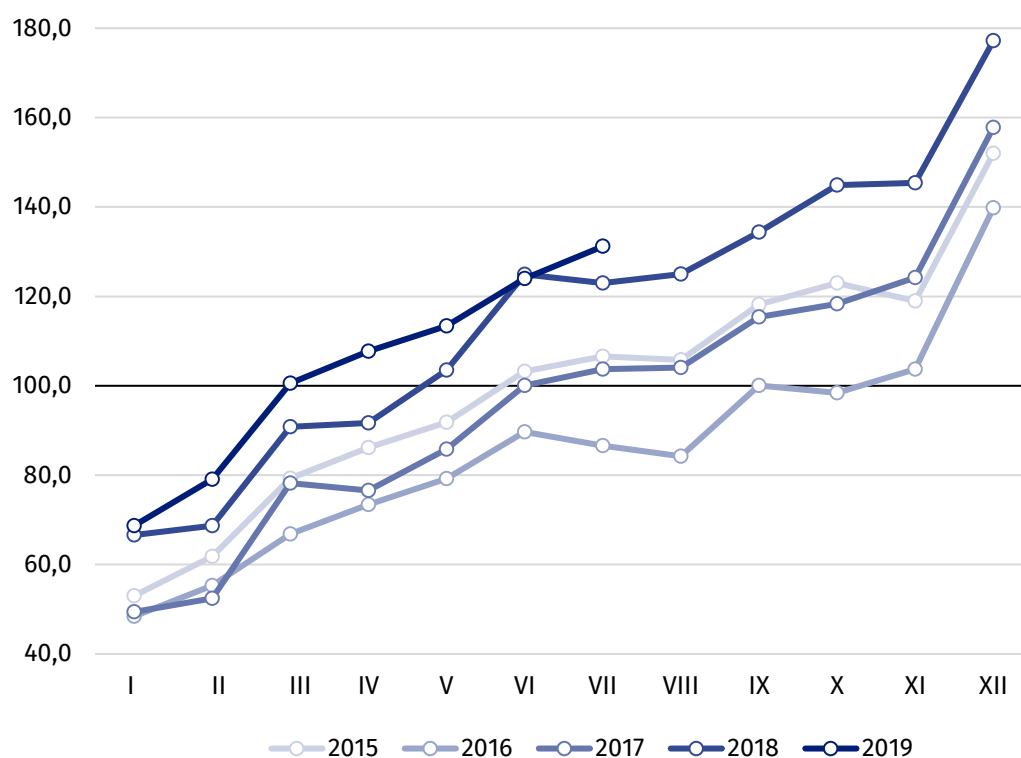

Value of construction and assembly production including both investment works and works with a restoration character in July of 2019 was by 6.6% higher than in the corresponding period of 2018 (against an increases by 12.4% and by 30.9% the year before).

In the period January-July of 2019 an increase of value investment works was by 8.0% higher than in the corresponding period of 2018 and works with a restoration character by 4.8% (against corresponding increases by 18.1% and 27.6% of 2018).

In July of this year in comparison to July of 2018 the increase value of construction and assembly production was noted among entities whose basic type of activity were civil engineering

Value of investment works in the first seven months of 2019 increased by 8.0% y/y

Chart 1. Index numbers of construction and assembly production (constant prices) - average monthly base 2015=100²

² Reported data for July of 2019.

Index number of construction and assembly production in July of 2019 (in constant prices) compared to the average monthly value of 2015 was 131.2.

After eliminating the seasonal factors, construction and assembly production reached the level by 5.5% higher than in July of 2018 and by 0.6% lower in comparison to June of 2019.
