

4.02.2015 r. World Cancer Day

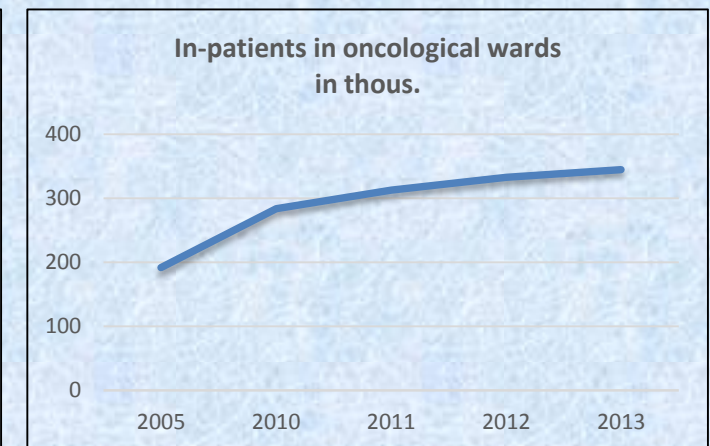

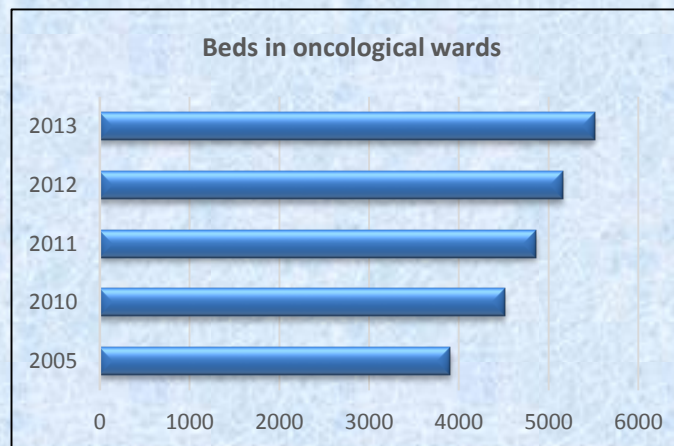

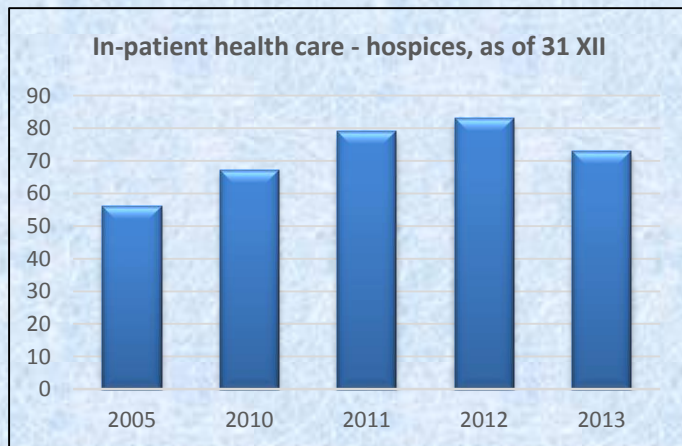

Neoplasms are the second leading cause of death in Poland. According to the latest data in 2013 there were 519 oncologists (oncological pathology and children's oncology and hematology) almost 4 times more than 2005. The number of beds in the oncological wards was 5509 (over 40% more than in 2005). In 2013 there were 345 thous. persons registered in the oncological wards (almost double increase compared with 2005).
