

STATISTICS IN TRANSITION

new series

An International Journal of the Polish Statistical Association

CONTENTS

From the Editor	1
Submission information for authors	5
Sampling methods and estimation	
Agiwal V., Kumar J., Shangodoyin D. K. , A Bayesian inference of multiple structural breaks in mean and error variance in Panel AR (1) model	7
Karna J. P., Nath D. C. , Improved rotation patterns using two auxiliary variables in successive sampling	25
Laaksonen S., Hämäläinen A. , Joint response propensity and calibration method	45
Research articles	
Bouchahed L., Zeghdoudi H. , A new and unified approach in generalizing the Lindley's distribution with applications	61
Krzyśko M., Łukaszczek W., Wołyński W. , Canonical correlation analysis in the case of multivariate repeated measures data	75
Longford N. T. , Searching for causes of necrotising enterocolitis. An application of propensity matching	87
Reznikova N., Osaulenko O., Panchenko V. , Indicators of international trade orientation of Ukraine in the context of assessment of the effectiveness of its export relations	119
Shukla K. K., Shanker R. , Power Ishita distribution and its application to model lifetime data	135
Research Communicates and Letters	
Kordos J. , Some results from the 2013 International Year of Statistics	149
Prasad S. , Some product exponential methods of imputation in sample surveys	159
