Motel

Definition:

A facility located in a road adapted to provide car services, and offers car parking. Motel must have at least 10 rooms, most of which are one-person or two-person rooms.

Every motel must to provide catering services including breakfasts. Depending on the facility furnishing and level of services being rendered, five categories of motels are attributed: the highest - 5 stars, the lowest - 1 star. Motels with a category from 5 * to 3 * inclusive should show rooms with full bathroom hygiene and sanitation and a restaurant. The three-star motel may be the lack of restaurant, if the max. 200 m from the hotel is a restaurant.
