Temporary storing of waste

Definition:

Waste, which are temporarily store prior to their transport, recovery and disposal. Waste for recovery or disposal, except the landfilling, can be stored in case that the storage is caused by any technological or organizational process, and does not exceed the limited terms on period that can be legitimated by any use of process application, (no more than 3 years). Waste for disposal may be stored only in order to collect adequate quantities of these wastes for transport to the landfill, (no more than 1 years).
