

Terms used in official statistics

Public sector

Definition:

The entirety of national economy entities grouping national property (of the State Treasury and state-owned legal entities), the property of local self-government units or local administration legal persons and "mixed property", with the majority of the capital (property) of public sector entities.

In the case of equal share of public capital (the total share of the ownership of the State Treasury, state-owned legal persons, and local self-government units is 50%) and private (the total share of the ownership of: domestic natural persons, other domestic private units, foreign persons is 50%), a national economy entity is classified to the private sector.
