

Terms used in official statistics

Full-time employees

Definition:

Full-time employees are persons who work for the whole of the work schedule applicable in a given employing establishment or for a given position.

This group also includes persons who, in accordance with the applicable provisions of law, work reduced working hours, e.g. due to exposure to physical health risk factors at work, or extended working hours, e.g. property caretakers.

High-level terms

- The main workplace
- Paid employees
