Economically inactive population according to the LFS

Definition:

The economically inactive population comprises:

1. persons aged 15-89 who were not classified as employed or unemployed, i.e. persons who during reference week:
 - a) did not work, neither had a job nor were seeking work;
 - b) were seeking a job, albeit not in an active way or were actively seeking work but were not ready (available) to start work within the two weeks following the reference week;
 - c) neither worked nor were seeking work, as they had already found a job and were waiting to start work during the period:
 - longer than 3 months,
 - up to 3 months albeit they were not available for this work;
2. all persons aged 90 years and more.

A group of discouraged persons aged 15-74 is specified among the economically inactive, i.e. persons not seeking work because they are convinced that they will not find it.
