

## Terms used in official statistics

### Carriage of passengers by sea

#### Definition:

Passengers transported both free of charge as well as on the basis of paid tickets in international traffic (from Polish ports to foreign ports, from foreign ports to Polish ports, between and among foreign ports, as well as transport of passengers on circle trips to foreign ports) as well as transport of passengers carried out between Polish ports (where both the port of embarkation and disembarkation are Polish).

#### High-level terms

- [Transport of passengers](#)

#### Low-level terms:

- [Average transport distance of a passenger by sea and coastal transport fleet](#)
