

Housing construction ^{a)} from I to V 2009

In accordance with the preliminary data for January – May 2009 there has been still observed significant increase of new dwelling stocks. During five months, 63 659 dwellings were completed, i.e. by 8,2% more than in the corresponding period of previous year and by 44,2% more than in the corresponding period of 2007.

However, investors acting on a housing market limited their activity in domain of new housing investments. During five months, they started a construction only 52 640 dwellings, i.e. by 31,3% less than in corresponding period of previous year. The number of permits issued decreased to 74 986 dwellings, i.e. by 18,5 %.

a) Preliminary data – can change after receiving the first quarter reports
