\* Data revised.

According to preliminary data, **the prices of sold production of industry** in April 2014 were of 0.1% lower than in the previous month. The highest drop of prices was recorded in mining and quarrying (of 0.7%), of which in mining of coal and lignite (of 1.7%), but the growth was recorded in mining of metal ores (by 0.2%). Prices in manufacturing were also lower of 0.1%, in which in manufacture of electrical equipment (of 0.8%). The drop of prices was also recorded among other things in manufacture of basic metals (of 0.7%), of metal products, of machinery and equipment, of furniture, of products of wood, cork, straw and wicker (of 0.4% each), of pharmaceutical products, of leather and related products (of 0.2% each), of food products, of paper and paper products, of other transport equipment (of 0.1% each). Prices in manufacture of coke and refined petroleum products reached the level similar to the one recorded in the previous month. However the prices were higher among other things in manufacture of chemicals and chemical products, of motor vehicles, trailers and semi-trailers, of textiles (by 0.1% each), of rubber and plastic products, of wearing apparel (by 0.2% each), of other non-metallic mineral products, of computer, electronic and optical products, of beverages (by 0.3% each) as well as of printing and reproduction of recorded media (by 0.4%). The growth of prices was recorded in section water supply; sewerage, waste management and remediation activities as well as in section electricity, gas, steam and air conditioning supply by 0.2% each.

In April 2014 the prices of sold production of industry were of 0.7% lower than a year earlier. The drop of prices was recorded in mining and quarrying (of 6.8%) and in manufacturing (of 0.6%). The prices increased in sections: electricity, gas, steam and air conditioning supply as well as in water supply; sewerage, waste management and remediation activities (by 1.1% each).

It is estimated that the **prices of construction and assembly production** in April 2014 reached the level similar to the one recorded in the previous month. A drop price was recorded in in civil engineering (of 0.1%), but in construction of buildings as well as in specialised construction activities reached the level similar to the one recorded in the March 2014.

In comparison to April of the previous year, the prices of construction and assembly production fell of 1.5%.
