

Index numbers of construction and assembly production in January 2019¹

21.02.2019 r.

103.2

Index number of construction and assembly production as compared to January of 2018

In January of 2019 construction and assembly production in constant prices was higher than in January of 2018.

According to preliminary data, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in January of 2019 by 3.2% higher than a year before (against an increase by 34.7% the year before) and by 61.2% lower in comparison to December of 2018 (against a decrease by 57.8% the year before).

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	I 2019	
	XII 2018=100	I 2018=100
CONSTRUCTION	38.8	103.2
Construction of buildings ^Δ	53.3	102.3
Civil engineering works ^Δ	24.8	115.3
Specialised construction activities	48.8	93.8

^Δ Abbreviated form according PKD 2007.

In comparison to January of 2018 an increase in construction and assembly production was recorded in entities whose basic type of activity are civil engineering works (15.3%) and the construction of buildings (2.3%), whereas a decrease by 6.2% was noted in entities performing specialised construction activities.

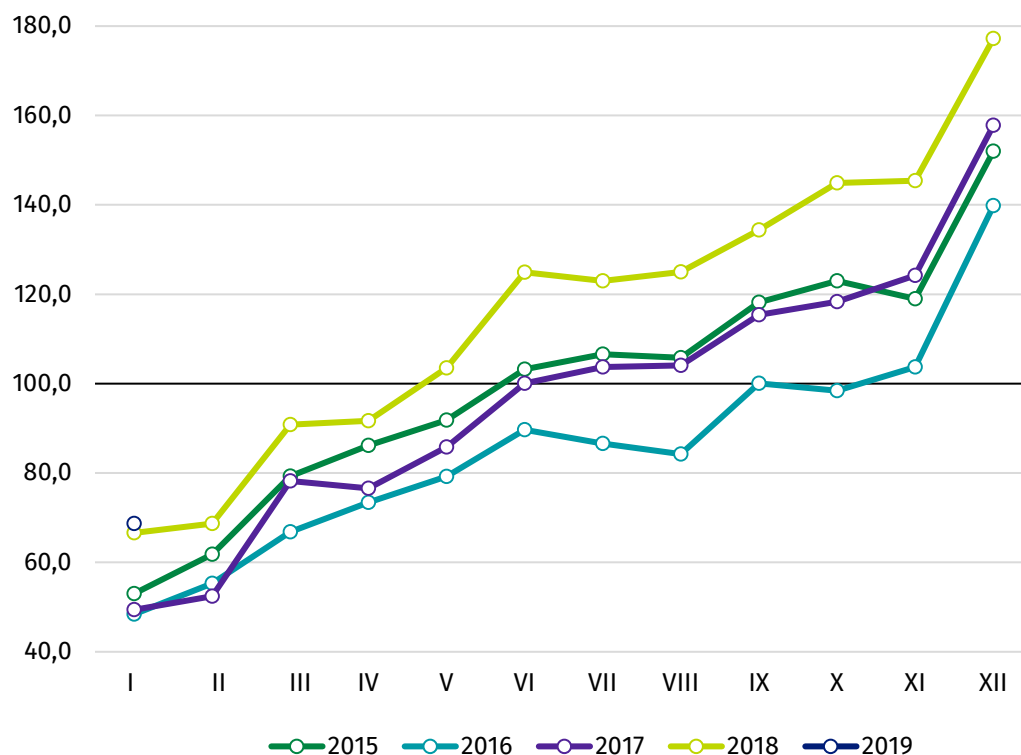

In comparison to January of 2018 significant increase in construction and assembly was recorded in entities whose basic type of activity are civil engineering works

¹ Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

Compared with December of 2018 the decrease of value works carried out was noted in all divisions of construction: in entities dealing mainly with civil engineering works - by 75.2%, performing specialised construction activities – by 51.2% and in entities whose basic type of activity is the construction of building – by 46.7%.

Value of construction and assembly production including investment works in January of 2019 was by 1.9% lower than in the corresponding period of 2018 (against an increase by 40.1% the year before), whereas works with a restoration character – by 12.6% (against an increase by 25.8% the year before).

Chart 1. Index numbers of construction and assembly production (constant prices) - average monthly base 2015=100²

² Reported data for January of 2019.

Index number of construction and assembly production in January of 2019 is calculated in constant prices with the monthly base 2015=100 was 68.7.

After eliminating the seasonal factors, construction and assembly production reached the level by 3.2% higher than in January of 2018 and by 0.3% lower in comparison to December of 2018.
