They are situated by the Baltic Sea or are in direct proximity to the sea. ## Tourist accommodation establishments in coastal areas

As of the end of July 2021, 2 342 tourist accommodation establishments operated in coastal areas, i.e. almost 1/4 of all establishments in Poland. The vast majority of them (almost 70%) operated on a seasonal basis (the percentage of seasonal establishments in Poland was less than 30%).

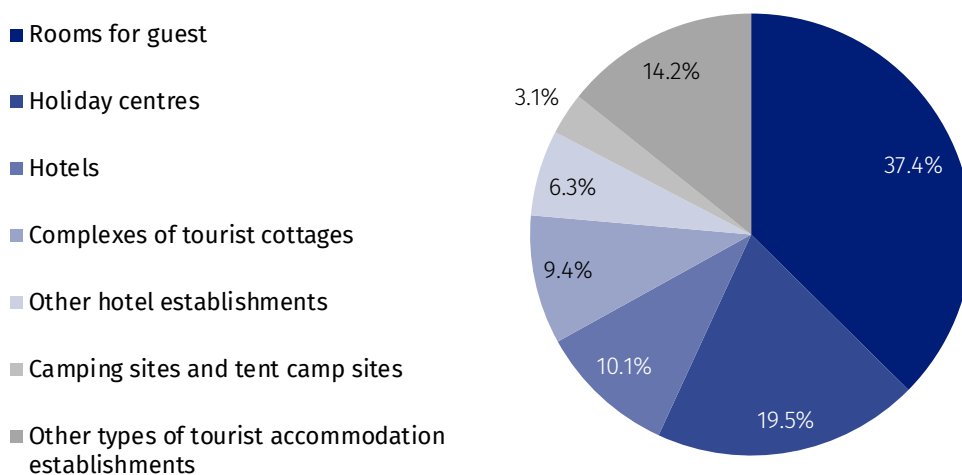

<sup>1</sup> According to the Eurostat methodology, coastal areas are classified on the basis of the distance of a given gmina from the sea: if a gmina borders on the sea, it is, as a rule, a coastal gmina; if a gmina does not border on the sea but 50% of its area is within 10 km from the sea, it is also considered a coastal gmina. In Poland, in agreement with Eurostat, the following gminas: Słupsk (rural gmina), Główny, Gniewino, Pruszcz Gdański (rural gmina), Cedry Wielkie, Koszalin (urban gmina) and Sianów (urban-rural gmina), are additionally considered to be coastal gminas. The list of coastal gminas is included in Annex 4 of the Methodological report "Tourist accommodation statistics" available on the website [https://stat.gov.pl/obszary-tematyczne/kultura-turystyka-sport/turystyka/zeszyt-metodologiczny-statystyka-turystycznej-bazy-noclegowej\\_15,1.html](https://stat.gov.pl/obszary-tematyczne/kultura-turystyka-sport/turystyka/zeszyt-metodologiczny-statystyka-turystycznej-bazy-noclegowej_15,1.html)
