Preface

With this publication we present the results of the non-financial enterprises conducting economic activity in Poland. The data source for this publication is the quarterly survey on non-financial enterprises executed with the use of a dataset F-01/I-01 - report on revenues, costs and financial results as well as on outlays on fixed assets. This study covers enterprises (legal entities) with 10 and more persons employed, keeping accounting ledgers.

The publication consists of an analytical part and methodological notes containing a description of the scope of the publication and definitions of basic concepts.

The analytical part contains a description of the results of the economic activity of surveyed non-financial enterprises in the period of January–December 2021. Characteristics are presented by kind of conducted activity, size class of the enterprise determined by number of persons employed and territorial breakdown by voivodships. Data on the number of enterprises, the number of persons employed and their financial results were analysed, including the value of revenues and costs, current assets and liabilities as well as investment outlays. Due to the importance of enterprises with foreign capital, a separate chapter of the publication was devoted to the analysis of enterprises with a predominant share of foreign capital. In this publication there is additional chapter on non-financial enterprises that benefited from government programme - Tarcza Finansowa PFR suport.

The publication was extended by charts and definitions of basic terms, which facilitate the analysis of presented issues.

An integral part of this publication are tables with a wider dataset available electronically on the Internet site [Statistics Poland / Topics / Economic Activities, Finances / Activity of enterprises. Activity of companies](#) and we encourage the Readers to use them.

We hope that this publication will be a valuable source of information for analyses of the current economic situation of the country. We appreciate any comments and suggestions regarding the subject and structure of the study, which will allow us to enrich the content and better adapt subsequent editions of the publication to the needs of the recipients.

We thank all Respondents who, by carrying out their reporting obligation F-01/I-01 - *report on revenues, costs and financial results as well as on outlays on fixed assets*, contributed to preparation of this publication.

Executive summary

In 2021, the financial results of the surveyed enterprises with 10 and more persons employed keeping accounting ledgers were higher than those achieved a year before. Total revenues were by 22.5% higher than in 2020, and the total costs increased by 19.8%. Net revenues from sale of products, goods and materials increased by 22.2% over the year, and the costs of this activity by 21.1%.

The financial result from sale of products, goods and materials amounted to 256.6 bn PLN and was higher by 43.8% than in 2020. The financial result from other operating activities was at the level of 42.9 bn PLN and was higher by 28.7 bn PLN than a year before. The result on financial operations improved (11.5 bn PLN compared to minus 17.8 bn PLN in 2020).

The gross financial result amounted to 310.9 bn PLN against 174.8 bn PLN a year ago, and its obligatory encumbrances were at the level of 48.0 bn PLN (compared to 30.3 bn PLN). The net financial result amounted to 262.9 bn PLN and was higher by 81.9% than a year ago. The net profit amounted to 294.2 bn PLN and was higher by 51.1% than that achieved in 2020, and the net loss amounted to 31.3 bn PLN and decreased by 18.8 bn PLN over the year. Net profit was recorded by 83.1% of all enterprises (78.9% a year ago), and the revenues obtained by them constituted 91.7% of total revenues of the surveyed enterprises (compared to 81.1% a year before).

The cost level indicator for all enterprises was 93.2% (compared to 95.3% a year before), while the gross sales profitability indicator increased from 4.9% to 5.8%. The gross turnover profitability indicator increased from 4.7% to 6.8% and the net turnover profitability indicator – from 3.9% to 5.8%.

The first degree financial liquidity indicator amounted to 44.9% (compared to 45.1% a year before), and the second degree financial liquidity indicator – 109.4% (compared to 106.3% a year before). 62.6% of enterprises obtained the first degree liquidity indicator above 20% (compared to 66.2% a year before). The second degree liquidity indicator in the range from 100% to 130% was recorded by 11.6% of the surveyed enterprises (compared to 11.2% a year before).

From the group of enterprises covered by the survey, 38.2% reported net revenues from sale of products, goods and materials for export in 2021 (compared to 38.1% a year earlier). The value of revenues from export sales was by 24.8% higher than a year before. The share of these revenues in the net revenues from sale of products, goods and materials of all surveyed enterprises increased from 23.0% to 23.5%. Among exporting units, net profit was reported by 86.7% of enterprises compared to 82.5% a year ago. The basic economic and financial relations of this group of enterprises improved and were higher than those of all surveyed enterprises.

In 2021 total investment outlays of the surveyed enterprises amounted to 181.9 bn PLN and were (in constant prices) by 9.1% higher than in the previous period (in 2020 they decreased by 7.9%). Outlays on intangible assets amounted to 19.7 bn PLN and were by 87.9% higher than in 2020.

In the surveyed population of non-financial enterprises 7,342 units had a predominant share of foreign capital. They constituted 15.6% of all surveyed enterprises. In 2021 the financial results of surveyed enterprises with a predominant share of foreign capital were much higher to the obtained in the previous year. The gross financial result was 118.3 bn PLN against 65.3 bn PLN a year before.

At the end of 2021 there were 17 876 entities, i.e. 38.0% of all surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers benefited in the years 2020-2021 from government programme Tarcza Finansowa PFR support due to COVID-19. The total value of subsidies given in 2020-2021 from government programme Tarcza Finansowa PFR support for surveyed non-financial enterprises amounted to 19.8 bn PLN.

Chapter 1. Non-financial enterprises

Presented in this publication **NON-FINANCIAL ENTERPRISES** with 10 and more persons employed keeping accounting ledgers are legal persons, entities without legal personality and natural persons conducting economic activity classified according to NACE Rev. 2 to the following sections:

- Mining and quarrying (section B),
- Manufacturing (section C),
- Electricity, gas, steam and air conditioning supply (section D),
- Water supply; sewerage, waste management and remediation activities (section E),
- Construction (section F),
- Wholesale and retail trade; repair of motor vehicles and motorcycles (section G),
- Transportation and storage (section H),
- Accommodation and food service activities (section I),
- Information and communication (section J - excluding cultural institutions with legal personality),
- Real estate activities (section L),
- Professional, scientific and technical activities (section M),
- Administrative and support service activities (section N),
- Education (section P - excluding universities),
- Human health and social work activities (section Q - excluding independent public health care facilities),
- Arts, entertainment and recreation (section R - excluding cultural institutions having legal personality),
- Other service activities (section S - excluding trade unions, religious and political organizations).

In terms of legal form, non-financial enterprises are partnerships, capital companies, civil law partnerships conducting activities pursuant to a contract concluded on the basis of the Civil Code, companies subject to legal regulations other than the Code of Commercial Companies and the Civil Code or legal forms to which the provisions on companies (for example water companies) apply, branches of foreign entrepreneurs, state-owned enterprises, cooperatives, state organizational units, research and development units, research institutes and natural persons conducting economic activity.

The sector of non-financial enterprises does not include: foundations, funds, churches, associations, social organizations, political parties, trade unions, employers' organizations, economic and professional self-government, foreign representative offices, housing associations. The activity of these entities is covered by separate statistical reporting.

1.1. Number of non-financial enterprises

The information on financial results achieved by surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers in 2021 included in this publication covers data on 47,053 enterprises, which means a decrease by 2.4% compared to 2020. The surveyed enterprises were dominated by small enterprises (from 10 to 49 persons employed), constituting 62.6% of the entire population covered by the survey. The share of medium-sized enterprises (from 50 to 249 persons employed) amounted to 29.6%, and of large enterprises (with 250 and more persons employed) – 7.8%.

Chart 1. Structure of number of surveyed non-financial enterprises broken down by size classes and NACE sections

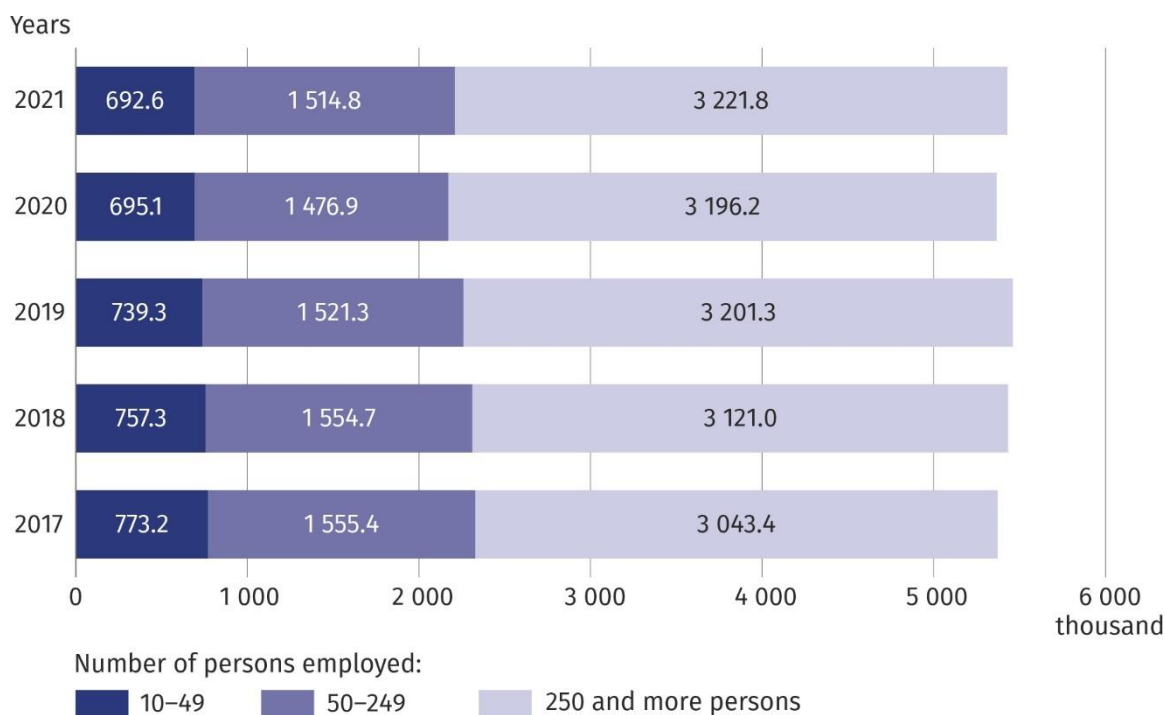

1.2. Persons employed

PERSONS EMPLOYED (working) include employees hired on the basis of an employment contract, i.e. labour contract, designation, appointment or election (including seasonal and temporary workers); employers and own-account workers: owners and co-owners (including contributing family workers) of units conducting economic activity (excluding company's partners not working in the company) and own-account workers; agents; outworkers; members of agricultural production cooperatives.

As of December 31, 2021, the enterprises with 10 and more persons employed keeping accounting ledgers covered by the survey employed 5,429.3 thousand persons, which means an increase by 1.1% compared to the end of December 2020. A total of 12.8% of persons employed worked in small units (from 10 to 49 persons employed), 27.9% in medium-sized units (from 50 to 249 persons employed), and 59.3% in large (with 250 and more persons employed) units.

Chart 2. Employed persons by size classes of surveyed non-financial enterprises at the end of December in 2017-2021

Chapter 2. Profit and loss account

2.1. Total revenues

TOTAL REVENUES (REVENUES FROM THE TOTAL ACTIVITY) include net revenues from sale of products, goods and materials, other operating revenues as well as financial revenues.

TOTAL OPERATING REVENUES include net revenues from sale of products, goods and materials as well as other operating revenues.

NET REVENUES FROM SALE OF PRODUCTS, GOODS AND MATERIALS include domestic and export sales of products (finished, semi-finished products and services) manufactured by the unit together with packaging, equipment and third party services if invoiced along with products to customers, sales of goods and materials, i.e. tangible current assets purchased for resale in the same condition as received and products manufactured by the unit if they are sold in a chain of own stores along with the third-party goods, as well as amounts due for goods and materials sold regardless whether or not they have been paid.

OTHER OPERATING REVENUES are revenues indirectly related to the unit's operating activities, in particular: profit on disposal of non-financial fixed assets, assets obtained free of charge (including donations), damages, provision reversal, revaluation of non-financial assets, revenues from social welfare activities, income from rent or lease of fixed assets or from investments in real estate and rights, extraordinary revenues.

FINANCIAL REVENUES are for example amounts due from dividends and profit shares, interest on loans granted, interest on term deposits, default interest, profit on disposal of financial assets, revaluation of financial assets, net foreign exchange gains.

The value of total revenues obtained by the surveyed enterprises with 10 and more persons employed keeping accounting ledgers amounted to 4,562.5 bn PLN. Compared to 2020, the value of revenues increased by 22.5% for the entire surveyed population, including small units by 16.4%, medium-sized units by 23.8% and for large units by 23.4%. The amount of 13.2% of total revenues were generated by small enterprises, 25.0% by medium-sized enterprises and 61.8% by large enterprises.

The increase in total revenues compared to that achieved in 2020 was recorded in all sections. The largest one was observed in: accommodation and catering (by 32.1%), electricity, gas steam and air conditioning supply (by 29.2%), mining and quarrying (by 28.9%), administrative and support service activities (by 25.0%), manufacturing (by 24.3%), transportation and storage (by 22.3%), information and communication (by 21.1%), water supply; sewerage, waste management and remediation activities (by 21.0%), trade; repair of motor vehicles (by 20.2%).

Chart 3. Structure of total revenues of surveyed non-financial enterprises broken down by size classes and NACE sections

2.2. Revenues from sale of products, goods and materials

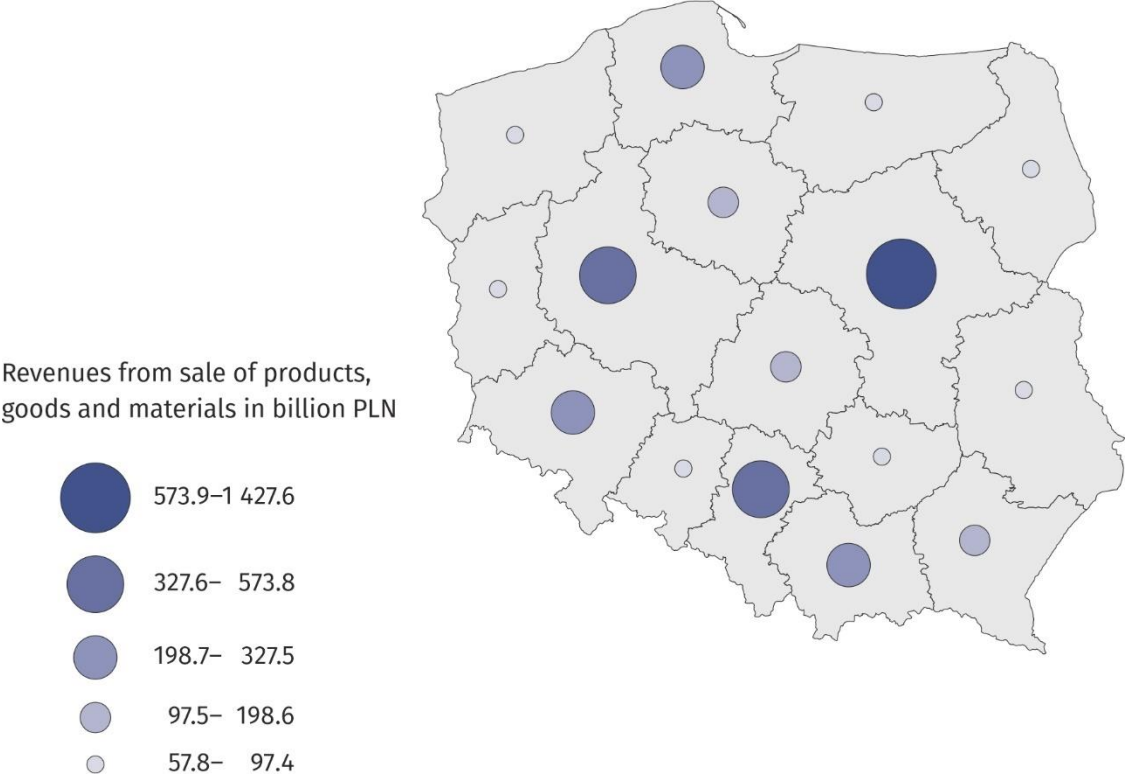

NET REVENUES FROM SALE OF PRODUCTS, GOODS AND MATERIALS include domestic and export sales of products (finished, semi-finished products and services) manufactured by the unit together with packaging, equipment and third party services if invoiced along with products to customers, sales of goods and materials, i.e. tangible current assets purchased for resale in the same condition as received and products manufactured by the unit if they are sold in a chain of own stores along with the third-party goods, as well as amounts due for goods and materials sold regardless whether or not they have been paid.

The value of net revenues from sale of products, goods and materials obtained by the surveyed enterprises with 10 and more persons employed keeping accounting ledgers amounted to 4,410.5 bn PLN. Compared to 2020, for the entire surveyed population their value increased by 22.2%, for small enterprises by 15.4%, for medium ones by 24.0% and for large ones by 23.0%. The 13.1% of total sales revenues of the surveyed enterprises was generated by small enterprises, 25.1% by medium-sized enterprises and 61.8% by large ones.

The largest increase in revenues from sale of products, goods and materials compared to those achieved in 2020 was noted, i.a. in the sections: accommodation and catering (by 29.0%), electricity, gas steam and air conditioning supply (by 27.2%), mining and quarrying (by 26.6%), administrative and support service activities (by 25.5%), manufacturing (by 24.8%), water supply; sewerage, waste management and remediation activities (by 22.5%), transportation and storage (by 22.2%) and trade; repair of motor vehicles (by 20.2%). Increase in total revenues compared to that achieved in 2020 was recorded also in other sections.

The highest increase in revenues from sale of products, goods and materials compared to the same period of the previous year was recorded in the Opolskie (by 29.1%), Śląskie (by 28.3%), Pomorskie (by 24.6%) and Dolnośląskie (24.5%), voivodships.

Map 1. Revenues from sale of products, goods and materials of surveyed non-financial enterprises

2.3. Revenues from sale of products, goods and materials for export

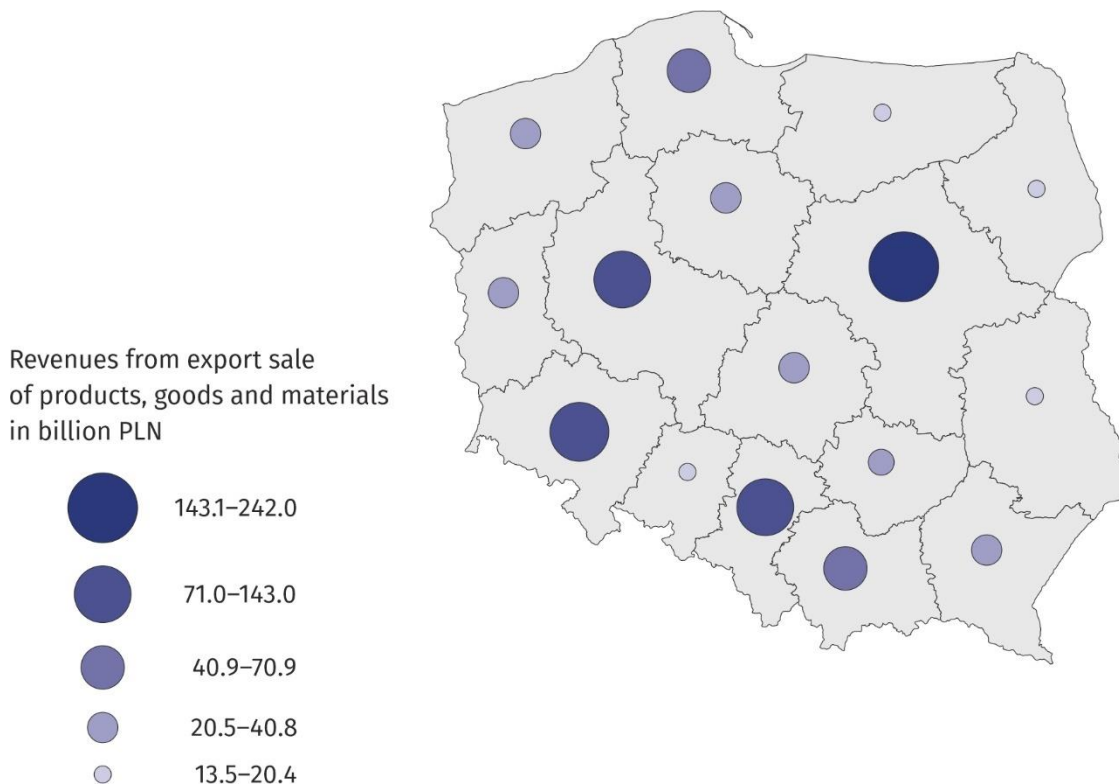

NET REVENUES FROM SALE OF PRODUCTS, GOODS AND MATERIALS FOR EXPORT include intra-Community deliveries to EU Member States and exports to non-EU countries.

From the population of non-financial enterprises covered by the survey, 38.2% of enterprises reported export sale of products, goods and materials in 2021 (38.1% in 2020). The level of export sales was higher by 24.8%, its share in net revenues from sale of products, goods and materials of all enterprises increased from 23.0% to 23.5%. By size classes of enterprises, large units generated 73.6% of total revenues from export sales, medium-sized units – 19.8% and the small ones – 6.6%. Among the exporting units net profit reported 86.7% of enterprises against 82.5% a year earlier.

The largest share in the revenues from sale of products, goods and materials for export was recorded for the sections of manufacturing (72.1%) and trade; repair of motor vehicles (11.9%).

The highest increase in revenues from sale of products, goods and materials for export compared to 2020 was recorded in the following voivodships: Lubelskie (by 33.1%), Opolskie (by 31.3%), Dolnośląskie (by 30.6%), Lubuskie (by 29.3 %) and Małopolskie (by 27.9%).

Map 2. Revenues from sale of products, goods and materials for export of surveyed non-financial enterprises

2.4. Total costs

TOTAL COSTS (COSTS FROM THE TOTAL ACTIVITY) include costs of products, goods and materials sold, other operating and financial costs.

COSTS OF PRODUCTS, GOODS AND MATERIALS SOLD include cost of products sold (i.e. basic operational costs decreased by the costs of generating benefits for the need of the unit and corrected by change in stock products) and value of goods and materials sold according to procurement or purchase prices.

OTHER OPERATING COSTS are costs indirectly related to the unit's operating activity, in particular: loss on disposal of non-financial fixed assets, depreciation of leased or rented fixed assets, unplanned depreciation (impairment charges), penalties, fines, damages, receivables written down (partially) or written off (fully) as a result of bankruptcy, composition or restructuring proceeding, provisions created for certain or highly probable future liabilities (loss on economic transactions in progress), revaluation of non-financial assets, costs of maintaining social welfare facilities, donations or fixed assets transferred free of charge, extraordinary costs.

FINANCIAL COSTS are for example interest on bank credits and loans, interest and discount on bonds issued by the unit, default interest, loss on disposal of financial assets, revaluation of financial assets, net foreign exchange losses.

The value of total costs incurred by the surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers amounted to 4,251.6 bn PLN. In total, the increase in the value of costs for the entire population was by 19.8%, for small units – 14.6%, medium-sized – 21.8% while the value of costs for the large units increased by 20.1%. Of the total costs, 13.0% were incurred by small enterprises, 25.0% by medium-sized enterprises and 62.0% by large enterprises.

In the structure of total costs by type, the share of consumptions of materials and energy (by 3.2 percentage points) and other costs by type (by 0.1 percentage points) increased. The share of the following costs decreased: wages and salaries (by 1.4 percentage points), services made by other contractors (external services) (by 0.8 percentage points), depreciation (by 0.7 percentage points) and social insurances and other benefits (by 0.3 percentage points). The share of taxes and fees has not changed.

Chart 4. Structure of total costs of surveyed non-financial enterprises

a Changes to 01-12 2020 (in pp.)

2.5. Financial results

FINANCIAL RESULT FROM THE SALE OF PRODUCTS, GOODS AND MATERIALS is the difference between the net revenues from the sale of products, goods and materials and the costs incurred to obtain them (the costs of the products, goods and materials sold).

FINANCIAL RESULT FROM OTHER OPERATING ACTIVITY is the difference between the other operating revenues and the other operating costs. From 2002 the item contained part of extraordinary events related to operating activity and from 2016 all kinds of extraordinary events related to operating activity.

FINANCIAL RESULT FROM OPERATING ACTIVITIES is the difference between total operating revenues and total operating costs.

RESULT ON FINANCIAL ACTIVITY is the difference between the financial revenues and the financial costs.

GROSS FINANCIAL RESULT is calculated as the difference of total revenues and total costs – in case of surplus of total costs over total revenues, the financial result is recorded with the sign (-).

OBLIGATORY ENCUMBRANCES ON GROSS FINANCIAL RESULT include corporate income tax and other payments under separate regulations. The income tax affecting the financial result includes current and deferred part. The deferred part is the difference between deferred income tax provisions and deferred income tax assets (due to temporary differences between gross financial result and taxable base, resulting from differences in the time of recognition of revenue and cost in accordance with accounting regulations and tax provisions) as at the end and beginning of the reporting period.

NET FINANCIAL RESULT is a gross financial result reduced by obligatory encumbrances.

In 2021, the financial results of 47,053 non-financial enterprises with 10 and more persons employed keeping accounting ledgers were more favorable than those obtained a year before.

The financial result from sale of products, goods and materials amounted to 256.6 bn PLN and was higher by 43.8% than in 2020. The financial result from other operating activities was at the level of 42.9 bn PLN and was higher by 28.7 bn PLN than a year before. The result on financial operations improved (11.5 bn PLN compared to minus 17.8 bn PLN in 2020).

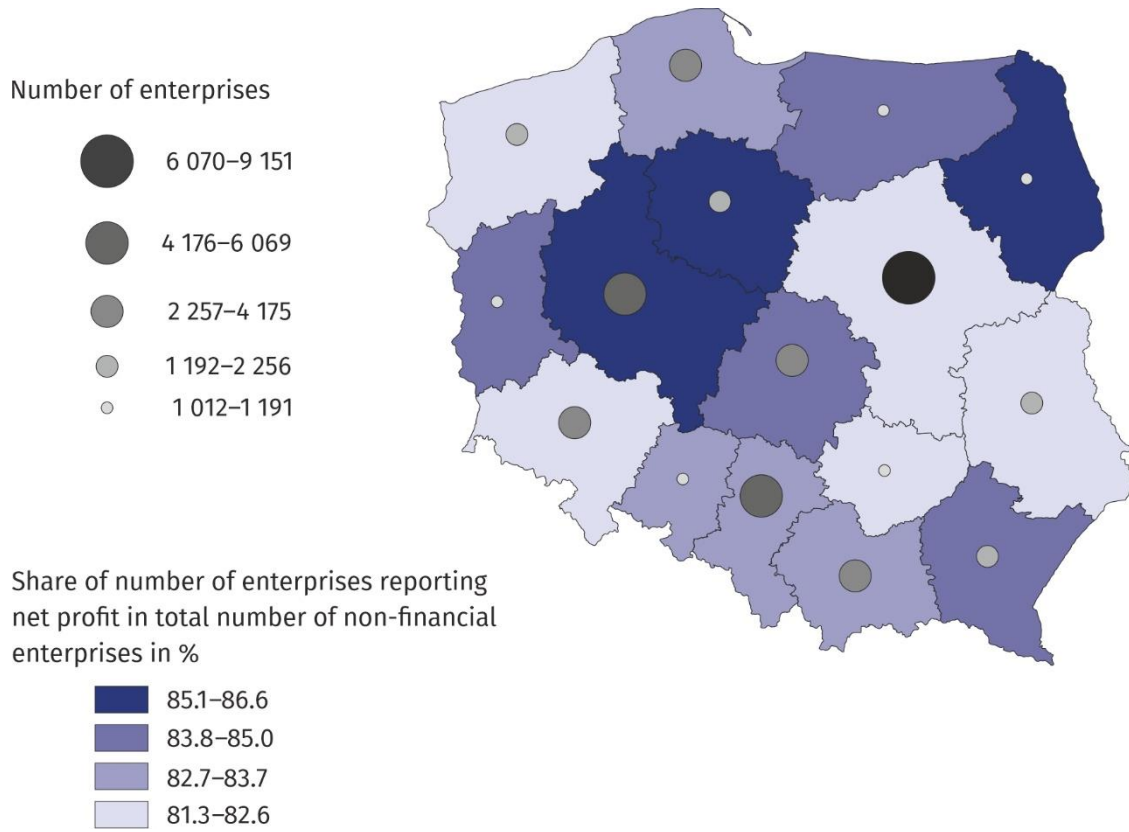

The gross financial result was 310.9 bn PLN compared to 174.8 bn PLN a year before. In groups of enterprises broken down by number of persons employed, the annual gross financial result increased by 100.5% in large units, by 58.0% in medium-sized units and by 42.4% in small units. The obligatory encumbrances on gross financial result amounted to 48.0 bn PLN (by 58.7% more than a year before, of which in large enterprises by 69.0%, in medium-sized ones – by 43.2% and in small enterprises by 39.2%).

The net financial result was at the level of 262.9 bn PLN (i.e. higher by 81.9% compared to that achieved in 2020). The recorded net profit was higher by 51.1% and the net loss was lower by 37.6%. Net profit was recorded by 83.1% of all surveyed enterprises (compared to 78.9% a year before) and the revenues obtained by them constituted 91.7% of total revenues of the surveyed enterprises (compared to 81.1% a year before).

The largest increase in both the gross financial result and the net financial result in relation to 2020 was recorded in the sections: mining and quarrying, accommodation and catering, transportation and storage and information and communication.

The highest increase in gross financial result and net financial result was recorded in the following voivodships: Śląskie, Pomorskie and Dolnośląskie.

Map 3. Share of number of enterprises reporting net profit in total number of surveyed non-financial enterprises

2.6. Economic indicators

COST LEVEL INDICATOR is the relation of total costs to total revenues.

GROSS SALES PROFITABILITY INDICATOR is the relation of the financial result from the sale of products, goods and materials to the net revenues from the sale of products, goods and materials.

NET SALES PROFITABILITY INDICATOR is the relation of net financial result to the net revenues from sales of products, goods and materials.

GROSS TURNOVER PROFITABILITY INDICATOR is the relation of gross financial result to the total revenues.

NET TURNOVER PROFITABILITY INDICATOR is the relation of net financial result to the total revenues.

FIRST DEGREE FINANCIAL LIQUIDITY INDICATOR is the relation of short-term investments to short-term liabilities (excluding special funds).

SECOND DEGREE FINANCIAL LIQUIDITY INDICATOR is the relation of short-term investments and short-term receivables to short-term liabilities (excluding special funds).

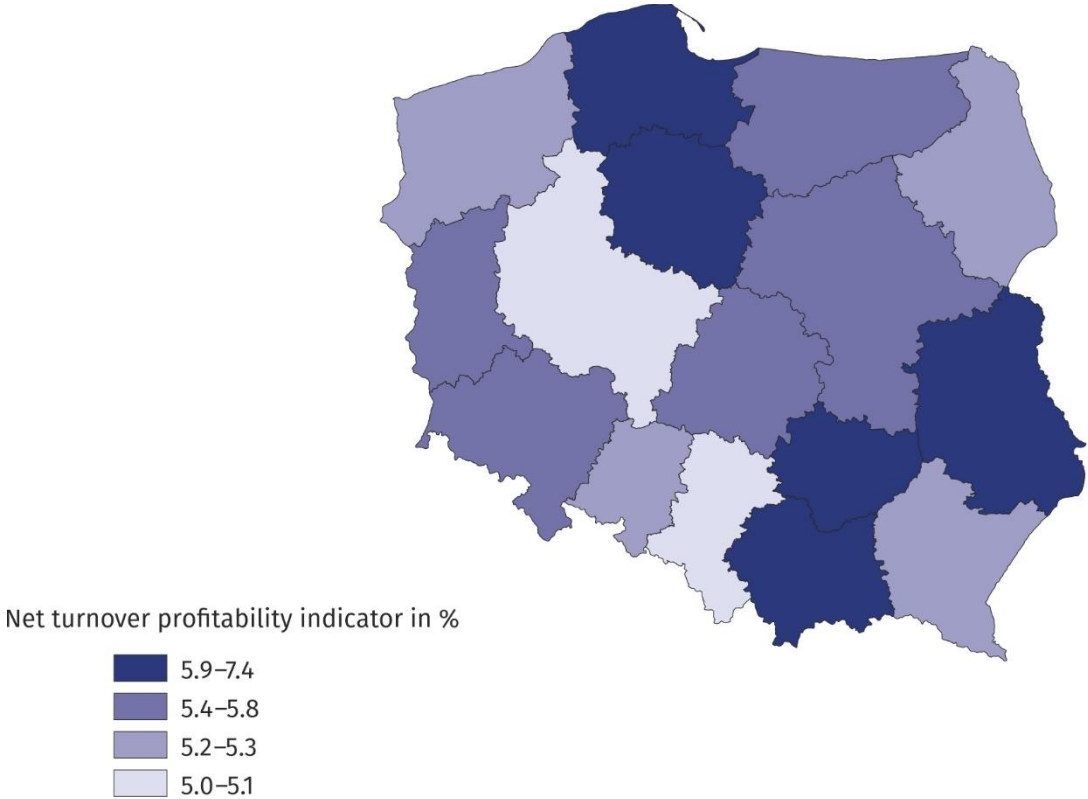

THIRD DEGREE FINANCIAL LIQUIDITY INDICATOR is the relation of current assets of the units (stocks, short-term receivables, short-term investments and short-term prepayments and accruals) to short-term liabilities (excluding special funds).

The cost level indicator of the surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers covered by the analysis was 93.2% (compared to 95.3% in 2020). The most favourable indicator was recorded by enterprises conducting activity in the field of information and communication (82.3%), professional, scientific and technical activities (88.8%), mining and quarrying (89.5%), water supply; sewerage, waste management and remediation activities (89.6%). The cost level indicator in electricity, gas steam and air conditioning supply was 91.8%, in manufacturing 93.1%, and in trade; repair of motor vehicles 95.4%.

The gross turnover profitability indicator increased from 4.7% to 6.8% and the net turnover profitability indicator from 3.9% to 5.8%. The highest increase of the net turnover profitability indicator was recorded in the sections i.a.: mining and quarrying (from minus 5.0% to 7.7%), accommodation and catering (from minus 7.8% to 4.4%), information and communication (from 8.8% to 14.5%) and administrative and support service activities (from 4.2% to 8.0%). Increase of the net turnover profitability indicator was recorded also in other sections i.a.: transportation and storage (from 1.9% to 4.6%), construction (from 5.4% to 7.9%), electricity, gas, steam and air conditioning supply (from 4.9% to 6.9%), manufacturing (from 4.3% to 5.9%), water supply; sewerage, waste management and remediation activities (from 7.1% to 8.7%), trade; repair of motor vehicles (from 3.0% to 4.0%).

The first degree financial liquidity indicator was 44.9% (45.1% a year before) and the second degree financial liquidity indicator – 109.4% (106.3% a year before).

Map 4. Net turnover profitability indicator of surveyed non-financial enterprises

Chapter 3. Current assets and liabilities

3.1. Current assets

CURRENT ASSETS are part of unit-controlled property resources used in operating activities of a reliably determined fair value, arising from past events that will provide the unit with economic benefits in the future. They include stocks (current tangible assets) and short-term: receivables, investments and prepayments and accruals.

STOCKS are tangible current assets, which include: materials – raw materials, primary and auxiliary materials, semi-finished third-party products, packaging, spare parts and waste; finished products – final articles, performed services, completed works, including construction and assembly works, research and development works, design works, geodetic and cartographic works, etc.; semi-finished products and work in progress – unfinished production, i.e. production (services, including construction works) in progress and semi-finished products of own production; goods for resale – tangible current assets acquired for resale in unchanged form; advances for deliveries.

SHORT-TERM RECEIVABLES cover total receivables from deliveries and services (regardless of their payment date) and the whole or part of other receivables not included in financial assets that become due within 12 months from the balance sheet date.

SHORT-TERM INVESTMENTS cover short-term (current) financial assets, in particular shares, other securities, loans granted, other short-term financial assets, cash and other monetary assets and other short-term investments.

SHORT-TERM PREPAYMENTS AND ACCRUALS include deferred costs and deferred revenues to be settled within 12 months from the balance sheet date, as an equivalent of revenues that are not yet receivables as of the balance sheet date from the legal point of view.

At the end of December 2021 the value of current assets of the surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers amounted to 1,741.2 bn PLN, which means an increase by 27.9% over the year. At the end of December 2021, large enterprises recorded an increase in current assets by 27.8% compared to the end of December 2020, medium-sized enterprises by 36.7%, and small enterprises by 13.0%.

The value of total stocks of the surveyed non-financial enterprises amounted to 484.5 bn PLN, i.e. by 28.2% higher than a year before. There was an increase in short-term receivables (by 31.4%), short-term investments (by 24.1%) and short-term prepayments and accruals (by 15.3%).

In the structure of total stocks the share of materials increased (from 28.3% to 31.4%) whereas decreased the share of goods (from z 40.7% to 37.9%), the share of finished products (from 14.0% do 13.5%) as well as the share of semi-finished products and work-in-progress (from 14.2% do 14.1%).

Chart 5. Current assets of surveyed non-financial enterprises at the end of December in 2017-2021

3.2. Liabilities

LIABILITIES AND PROVISIONS FOR LIABILITIES are obligations resulting from future events to provide benefits of a reliably determined value that will result in usage of the entity's existing or future assets of the unit. They include provisions for liabilities, long-term liabilities, short-term liabilities and prepayments and accruals.

LONG-TERM LIABILITIES other than liabilities from deliveries and services, include liabilities which become due fully or partially more than 12 months after the balance sheet date.

SHORT-TERM LIABILITIES (excluding special funds) include all liabilities from deliveries and services and all or part of other liabilities due within 12 months after the balance sheet date.

At the end of December 2021, long and short-term liabilities (excluding special funds) amounted to 1,700.5 bn PLN and were by 17.0% higher than a year before. In large enterprises, the increase of these liabilities was by 18.9% and in medium-sized enterprises – by 18.4%. In small enterprises, long-term and short-term liabilities (excluding special funds) were by 5.5% higher comparing to the previous year.

At the end of December 2021, the value of short-term liabilities of all surveyed non-financial enterprises amounted to 1,109.1 bn PLN and was by 24.7% higher than a year ago. The greatest increase was noted in liabilities from the issue of debt securities (by 62.4%), other short-term liabilities (by 40.7%) and from deliveries and services (by 30.9%).

Chart 6. Structure of short-term liabilities of surveyed non-financial enterprises

^a Changes to 01-12 2020 (in pp.)

Chapter 4. Outlays

4.1. Investment outlays

INVESTMENT OUTLAYS are the financial or material expenditures aimed at creating new fixed assets or improving (rebuilding, enlargement, reconstruction or modernisation) existing fixed capital items as well as outlays on so-called initial equipment for the investment. The investment outlays are divided into outlays on fixed assets and other outlays.

The outlays on fixed assets include expenditures on: buildings and structures (include buildings and premises as well as civil and water engineering structures), including, among others, construction and assembly works, design-cost-estimate documentations; machinery, technical equipment and tools (including instruments, movables and equipment); means of transport; others, i.e. irrigation and drainage, land quality improvements, long-term plantings, livestock (basic herd) and interest on investment credits and loans for the period of the investment implementation.

Other outlays are expenditures on the so-called initial equipment for the investment and other costs related to the implementation of the investment. Those outlays do not increase the value of the fixed assets.

In 2021 total investment outlays of the surveyed enterprises with 10 and more persons employed keeping accounting ledgers amounted to 181.9 bn PLN. The value of outlays was (in constant prices) by 9.1% higher than a year before (in 2020 they decreased by 7.9%). Outlays (at constant prices) on buildings and structures increased by 8.2%, on machinery, technical equipment and tools – by 6.8% and on transport equipment – by 19.0%. The share of purchases¹ in total outlays was 60.5% (in 2020 – 60.2%).

The share in investment outlays of large units (with 250 and more persons employed) amounted to 73.0% of total investment outlays, of medium-sized enterprises (from 50 to 249 persons employed) – 18.8% and small units (from 10 to 49 persons employed) – 8.2%.

Investments were observed mainly in enterprises conducting activity in the field of: industry – 37.7% of total investing enterprises, trade; repair of motor vehicles – 26.2%, construction – 8.2%, transportation and storage – 5.3%, information and communication – 4.4%, real estate activities – 4.3%, administrative and support service activities – 3.0%. In total, these enterprises invested 176.3 bn PLN – 96.9% of the total outlays of the surveyed enterprises.

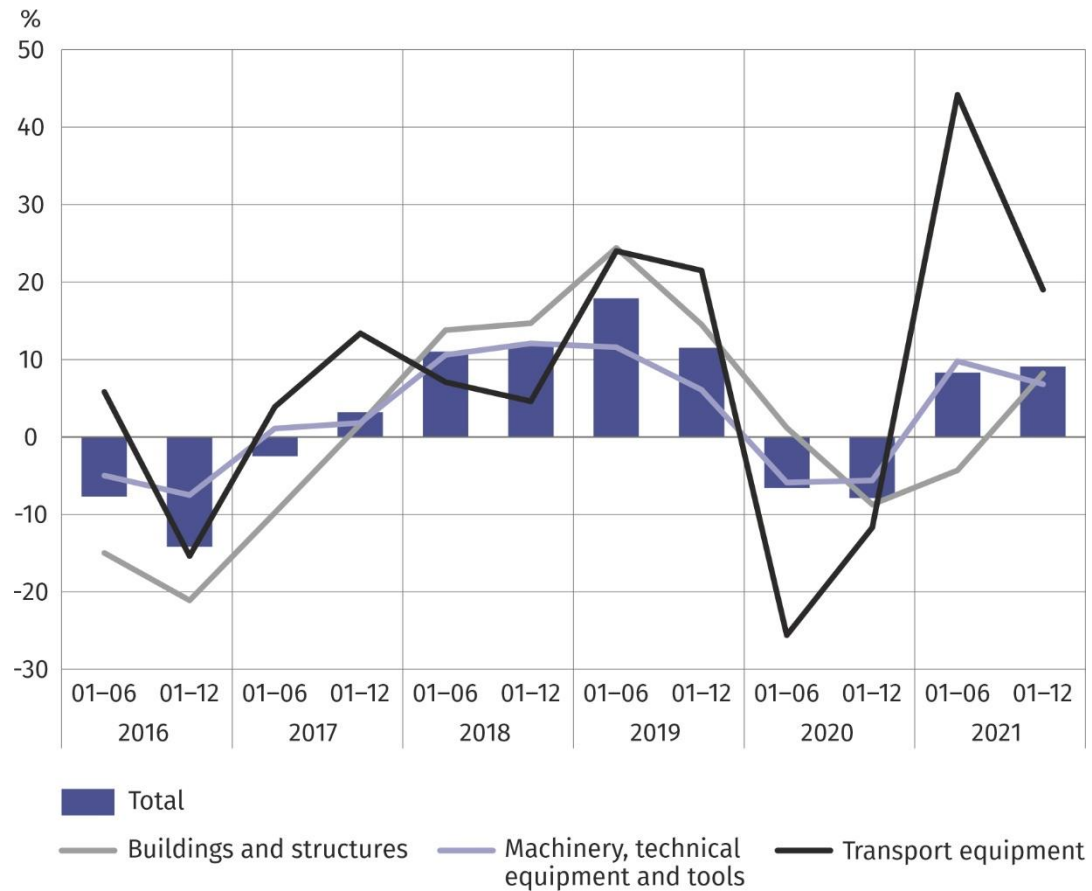

Among the manufacturing units, the highest share of outlays was in enterprises that manufactured food products – 14.8%, motor vehicles, trailers and semi-trailers – 11.9%, chemicals and chemical products – 9.3%, rubber and plastic products – 8.9%, electrical equipment – 7.8%, coke and refined petroleum products – 7.4%, metal products – 6.9% as well as other non-metallic mineral products – 5.9% and manufacture of paper and paper products – 5.0%.

The total estimated value of newly started investments was 61.1 bn PLN. From the total estimated value of newly started investments, 8.1% was of small enterprises, 16.2% of medium-sized enterprises and 75.7% of large enterprises.

Enterprises located in four voivodships: Mazowieckie, Dolnośląskie, Wielkopolskie and Śląskie had the largest share in outlays made in 2021 – 67.0% in total. In seven other voivodships: Małopolskie, Pomorskie, Łódzkie, Lubelskie, Kujawsko-Pomorskie, Zachodniopomorskie and Podkarpackie, 26.7% of outlays were spent. The remaining five voivodships accounted for 6.3% of investment outlays incurred.

¹ Machinery, technical equipment and tools as well as transport equipment.

Chart 7. Investment outlays of surveyed non-financial enterprises – increase/decrease in relation to the corresponding period of the previous year

4.2. Outlays on intangible assets

OUTLAYS ON INTANGIBLE ASSETS are expenditures on acquired property rights, classified as non-current (fixed) assets, economically viable with an anticipated useful economic life longer than a year, intended for use for the purposes of the unit. In particular, expenditures on: copyright property rights, related property rights, licenses, concessions, rights to inventions, patents, trademarks, utility models, ornamental patterns, and value equivalent to information obtained in the field of industry, commerce, science or organization (know-how), goodwill, costs of completed development work.

Outlays on intangible assets amounted to 19.7 bn PLN and were by 87.9% higher than in 2020. The share of small enterprises in these outlays was 33.3%, of medium-sized enterprises – 9.8% and of large ones – 56.9%.

In the structure of outlays on intangible assets, 41.9% were outlays on property rights and copyrights, related property rights, licenses and concessions.

Chart 8. Outlays on intangible fixed assets, property rights and copyrights, related property rights, licenses and concessions of surveyed non-financial enterprises in 2017-2021

Chapter 5. Non-financial enterprises with a predominant share of foreign capital

ENTERPRISE WITH A PREDOMINANT SHARE OF FOREIGN CAPITAL is the enterprise in which the share of foreign capital in the share capital exceeds 50%.

The share of foreign capital in the share capital was calculated on the results of the statistical survey of the activity of enterprises with foreign capital.

FOREIGN CAPITAL is the capital contributed to the unit in the form of financial resources (cash, shares, bonds), tangible fixed assets (machines, equipment, means of transport, real estate) and intangible assets (patents, licenses, etc.) by a foreign enterprise. A foreign enterprise may be: a natural person without Polish citizenship; a legal person located abroad; an organizational unit without legal personality located abroad.

SHARE CAPITAL (FUND) is the actual contribution of the owner or co-owner, provided to start up the economic unit at the moment of its establishment, increased later if necessary.

In the surveyed population of non-financial enterprises with 10 and more persons employed keeping accounting ledgers 7,342 units had a predominant share of foreign capital². They constituted 15.6% of all surveyed enterprises. Among these enterprises, small units (from 10 to 49 persons employed) prevailed, constituting 44.1%. The share of medium-sized enterprises (from 50 to 249 persons employed) amounted to 36.0% and that of large enterprises (with 250 and more persons employed) to 19.9%.

In the analysed population, enterprises with a 100% share of foreign capital in the share capital prevailed, constituting 85.9% (increase by 0.8 percentage point compared to 2020).

As at 31st December 2021, 1,929.6 thousand persons worked in enterprises with a predominant share of foreign capital covered by the survey, which means a decrease by 2.6% compared to the end of December 2020. In small units (from 10 to 49 persons employed) worked 4.4% of persons employed, in medium-sized (from 50 to 249 persons employed) – 16.9%, and in the large ones (with 250 and more persons employed) – 78.7%.

The value of total revenues obtained by the surveyed enterprises with a predominant share of foreign capital amounted to 1,874.0 bn PLN. Compared to 2020, the total value of these revenues increased by 21.6% for the entire surveyed population, by 19.9% for small enterprises, for medium-sized – 24.7% and for large enterprises by 20.9%. Small enterprises generated 7.4% of total revenues, 20.7% – medium-sized enterprises and 71.9% – large enterprises.

The value of total costs incurred by the surveyed enterprises with a predominant share of foreign capital was 1,755.7 bn PLN. The increase in the value of costs for the entire analysed population was by 18.9%, for small enterprises – by 16.5%, for medium enterprises by 21.8% and for large enterprises by 18.4%. Of the total costs, 7.4% was incurred by small enterprises, 20.7% by medium-sized enterprises and 71.9% by large enterprises.

In 2021 the financial results of 7,342 surveyed enterprises with a predominant share of foreign capital were much higher to the obtained in the previous year. The gross financial result was 118.3 bn PLN against 65.3 bn PLN a year before. Broken down by number of persons employed, the annual gross financial result in small enterprises was higher by 101.5%, in medium enterprises by 95.9% and in large ones by 75.7%. The net financial result was at the level of 98.0 bn PLN (increase by 88.4% compared to 2020) and it constituted 37.3% of net financial result of all surveyed enterprises keeping accounting ledgers with 10 and more persons employed.

² The share of foreign capital in the share capital was calculated on the results of the statistical survey of the activity of enterprises with foreign capital in 2020

The faster growth in total revenues achieved in 2021 than in the total costs (by 21.6% and 18.9%, respectively) was reflected in the improvement of the cost level indicator (93.7% comparing to 95.8% a year before). The gross sales profitability indicator increased to 6.0% (5.0% in 2020). The gross turnover profitability indicator improved from 4.2% to 6.3% as well as the net turnover profitability indicator from 3.4% to 5.2%.

At the end of December 2021, the value of current assets of the surveyed enterprises amounted to 662.6 bn PLN, which means increase of 19.0% over the year. At the end of December 2021 large enterprises recorded an increase in current assets compared to the end of December 2020 by 18.7%, medium enterprises by 21.4% and small ones by 14.2%.

The value of short-term liabilities of all surveyed enterprises with a predominant share of foreign capital amounted to 454.6 bn PLN at the end of December 2021 and was by 20.1% higher than a year ago.

Total investment outlays of the surveyed enterprises with a predominant share of foreign capital in 2021 amounted to 68.4 bn PLN and were (at constant prices) by 11.5% higher than a year ago. The share of large enterprises (with 250 and more persons employed) in outlays was 80.7%, of medium-sized enterprises (from 50 to 249 persons employed) – 16.4% and of small enterprises (from 10 to 49 persons employed) – 2.9%.

Chart 9. Basic data of surveyed non-financial enterprises with a predominant share of foreign capital by size class

Chapter 6. Non-financial enterprises benefiting from government programme Tarcza Finansowa PFR support due to COVID-19

PFR - Polish Development Fund is a group of financial and advisory institutions for entrepreneurs, local governments and individuals investing in the sustainable social and economic development of the country. The rules of activity of PFR determines Act of 4 July 2019 on the system of development institutions (Journal of Laws 2019, item 1572), as amended by the Act of 31 March 2020 (Journal of Laws 2020, item 695) on the special supportive instruments due to COVID-19 where the scope of tasks of PFR was extended by activities leading to prevent or to mitigate the results of crisis situations including effects of spreading disease caused by this virus (COVID-19).

Tarcza Finansowa PFR support is an element of government programme which aim is to provide financial support for entrepreneurs who felt the most results of Sars-CoV-2 pandemic. The rules, conditions were established by law as well as mode of giving support to entrepreneurs – on market rules – vital for maintaining and continuation of conducting economic activity at risk as a result of consequences for entrepreneurs resulting from introduced, on the basis of separate legal acts, bans and restrictions to prevent and counteract Sars-CoV-2 infection as well as dis-semination of disease caused by this virus (COVID-19).

Characteristics of surveyed non-financial enterprises with 10 and more persons employed keeping accounting ledgers and conducting activity in 2020 as well as in 2021 and benefiting in these years in the form of subsidies from government programme Tarcza Finansowa PFR support for SME due to COVID-19

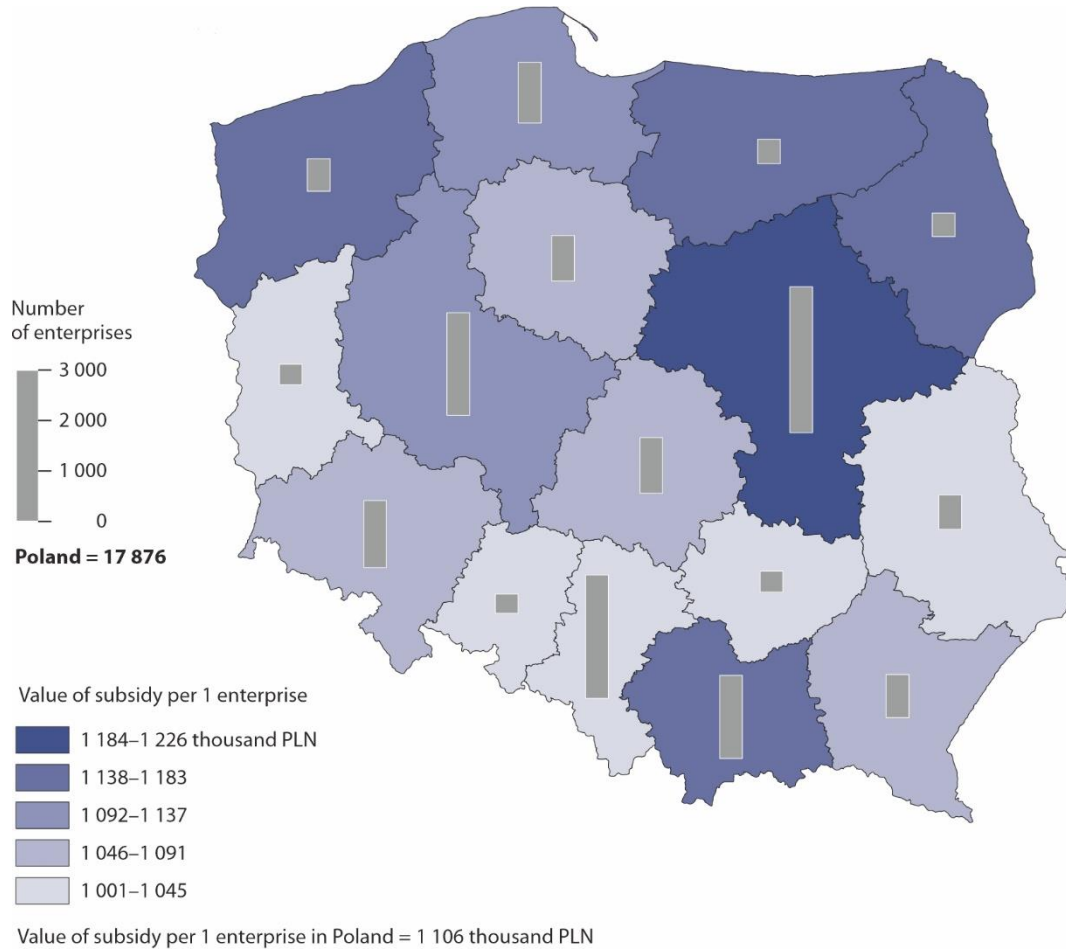

At the end of 2021 there were 17 876 entities, i.e. 38.0% of all surveyed non-financial enterprises with 10 and more persons employed, which in the years 2020-2021 benefited from government programme Tarcza Finansowa PFR support for small and medium-sized enterprises because of COVID-19. This support was given in the form of returnable subsidies by the Polish Development Fund. This population was dominated by small enterprises (from 10 to 49 persons employed), constituting 69.7%. The share of the medium-sized enterprises (from 50 to 249 persons employed) amounted to 30.0%, and of large enterprises (with 250 and more persons employed) – 0.3%. Enterprises that received the above mentioned support were mainly entities conducting activity in the scope of manufacturing (5 655 entities), trade; repair of motor vehicles (5 063 entities), construction (2 428) as well as transportation and storage (1 147).

Chart 10. Number of surveyed non-financial enterprises receiving subsidies from government programme Tarcza Finansowa PFR support

At the end of 2021 the largest number of surveyed enterprises benefiting from Tarcza Finansowa PFR support for micro, small and medium-sized enterprises had their seats in the following voivodships: Mazowieckie (2 890), Śląskie (2 444), Wielkopolskie (2 031), Małopolskie (1 647), Dolnośląskie (1 327).

Map 5. Number of surveyed non-financial enterprises receiving subsidies from government programme Tarcza Finansowa PFR support

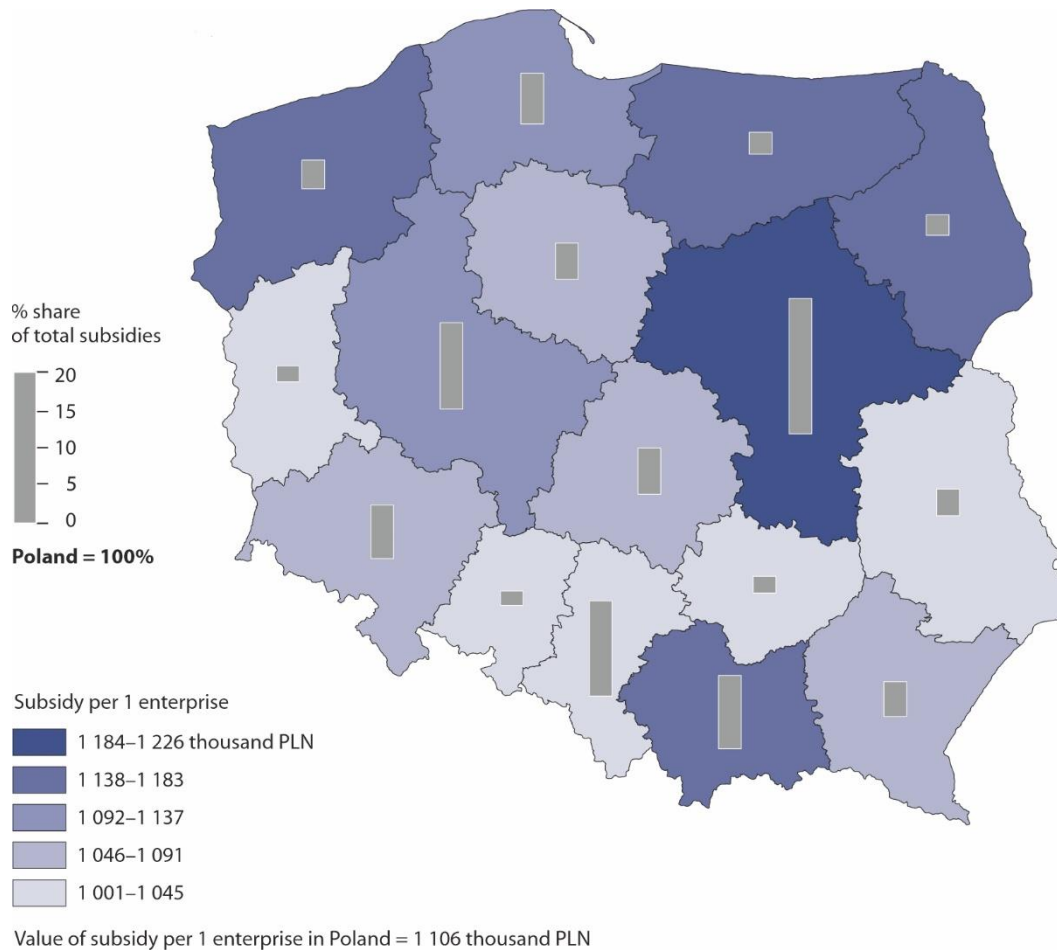

The total value of subsidies given in 2020-2021 from government programme Tarcza Finansowa PFR support for surveyed non-financial enterprises with 10 and more persons employed amounted to 19.8 bn PLN. The highest value of this amount – 7.0 bn PLN (35.5%) was allocated to enterprises conducting activity in the scope of trade; repair of motor vehicles, the value of 5.9 bn PLN (30.0%) – in manufacturing, 2.5 bn PLN (12.4%) – in construction. At the end of 2021, 48.8% out of total paid subsidies was redeemed (9.7 bn PLN) and 9.7% was returned (1.9 bn PLN).

Chart 11. Value of subsidies paid and redeemed of surveyed non-financial enterprises from government programme Tarcza Finansowa PFR support by NACE section

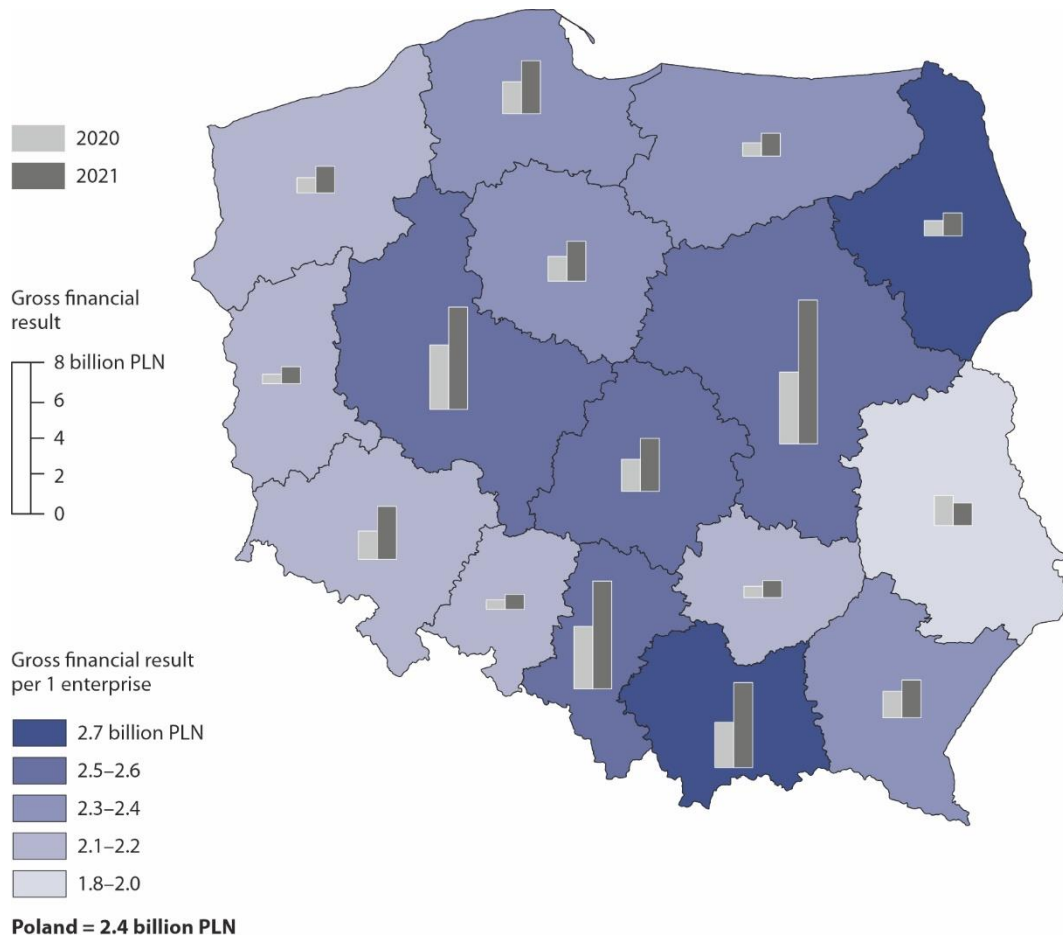

Map 6. Value of subsidies received by surveyed non-financial enterprises from government programme Tarcza Finansowa PFR support

In 2021, total revenues of enterprises benefiting from government programme Tarcza Finansowa PFR support for small and medium-sized enterprises constituted 11.7% of total revenues gained by all surveyed non-financial enterprises and were higher by 24.8% than a year before. Their total costs increased by 22.2%. The cost level indicator improved from 93.9% in the previous year to 91.9% in 2021.

Gross financial result amounted to 43.1 bn PLN (26.2 bn PLN a year before) and its obligatory encumbrances were at the level of 4.2 bn PLN (2.8 bn PLN a year before). Net financial result was 39.0 bn PLN and was higher by 66.0% compared to the previous year.

Map 7. Gross financial result of surveyed non-financial enterprises receiving subsidies from government programme Tarcza Finansowa PFR support

Basic data on surveyed non-financial enterprises receiving returnable subsidies from government programme Tarcza Finansowa PFR support for SME in 2020-2021

SPECIFICATION	01-12 2020	01-12 2021	01-12 2020 = 100
	in milion PLN		
Total revenues	428,464.4	534,853.5	124.8
Total costs	402,236.0	491,713.1	122.2
Gross financial result	26,228.4	43,140.5	164.5
Net financial result	23,471.1	38,956.3	166.0
	%		
Cost level indicator	93.9	91.9	x
Gross turnover profitability indicator	6.1	8.1	x
Net turnover profitability indicator	5.5	7.3	x

Gross turnover profitability indicator increased from 6.1% in 2020 up to 8.1% in 2021, whereas net turnover profitability indicator from 5.5% to 7.3%, respectively.

The most significant improvement of net turnover profitability indicator was recorded by enterprises conducting activity i.a. in accommodation and catering (from minus 8.4% to 7.0%), arts, entertainment and recreation (from minus 14.5% to minus 1.7%) as well in the field of real estate activities (from 3.1% to 12.6%). This indicator deteriorated, i.a. in information and communication (from 9.7% to 9.4%).

Almost 63% of enterprises receiving subsidies from government programme Tarcza Finansowa PFR support for SME in 2021 incurred investment outlays on fixed assets. Investment outlays of these entities amounted to 11.9 bn PLN and were (at current prices) by 24.7% higher than in 2020. The increase of outlays (at current prices) was recorded i.a. in transportation and storage (by 76.1%), construction (by 30.1%), trade; repair of motor vehicles (by 22.0%) and manufacturing (by 21.2%).

Beyond the support in the form of subsidies from government programme Tarcza Finansowa PFR support for small and medium-sized enterprises, there was government aid for specific population of enterprises from Tarcza Finansowa PFR support for large enterprises.

From September 2020 until December 2021, 122 entities out of surveyed non-financial enterprises keeping accounting ledgers and being active both in 2020 and 2021 received support in the form of preferential loans or liquidity loans at the value of 3.1 bn PLN. In 2021, total revenues of these enterprises constituted 1.0% of total revenues gained by all surveyed non-financial enterprises and were higher by 39.0% than a year before. Their total costs increased by 14.3%. The cost level indicator improved from 117.9% in the previous year to 97.0% in 2021. Gross turnover profitability indicator increased from minus 17.9% in 2020 up to 3.0% in 2021, whereas net turnover profitability indicator from minus 15.9% to 2.2%, respectively.

Due to small population and disclosure control it is not possible to present detailed breakdowns of data for these enterprises.

Methodological notes

1. Sources and the scope of data

This publication provides data on revenues, costs and financial results as well as current assets, liabilities and investment outlays of non-financial enterprises (legal entities) that keep accounting ledgers and have 10 and more persons employed.

The source of information is a quarterly survey of revenues, costs and financial result as well as outlays on fixed assets basing on a statistical questionnaire F-01/I-01 filled in by non-financial enterprises conducting economic activities in the period January–December 2021.

The surveyed enterprises are classified in two groups due to the number of persons employed, according to which reporting obligations for a given period are determined. The first group includes enterprises in which the number of persons employed is 50 persons and more. This group was presented in a breakdown by two sub-groups: units from 50 to 249 persons employed and units with 250 or more persons employed. These units are required to submit statistical reports on a quarterly basis and their basic data are published in the Statistical Bulletin. The second group of enterprises includes units in which the number of persons employed is from 10 to 49. These units are required to submit reports on a semi-annual basis.

In this publication, statistical data are presented in accordance with the principal kind of activity conducted by the enterprises at the level of a section and selected divisions of NACE Rev.2 as well as by voivodship – according to the organisational status as at 30 December 2021. The basis of breakdown by voivodships is a seat of the main office of the enterprise.

The publication includes non-financial enterprises i.e. legal persons, entities without legal personality and natural persons, which in the reference year or a part of the year of the survey conducted the economic activity in Poland classified to the following sections in accordance with NACE Rev.2:

Section	Description	
B	Mining and quarrying	–
C	Manufacturing	–
D	Electricity, gas, steam and air conditioning supply	–
E	Water supply; sewerage, waste management and remediation activities	–
F	Construction	–
G	Wholesale and retail trade; repair of motor vehicles and motorcycles	Trade; repair of motor vehicles
H	Transport and storage	
I	Accommodation and food service activities	Accommodation and catering
J*	Information and communication	–
L	Activities related to real estate activities	–
M	Professional, scientific and technical activities	–
N	Activities related to administrative and support service activities	–
P**	Education	–
Q***	Human health and social work activities	–
R****	Arts, entertainment and recreation	–
S*****	Other service activities	–

* section J – excluding cultural institutions with legal personality

** section P – excluding higher education institutions

- *** section Q – excluding independent public health care facilities
- **** section R – excluding cultural institutions with legal personality
- ***** section S – excluding trade unions, religious and political organizations

Whenever the publication makes reference to “Industry”, it applies to an additional grouping, which includes the following sections of NACE Rev.2: “Mining and quarrying”, “Manufacturing”, “Electricity, gas, steam and air conditioning supply”, “Water supply; sewerage, waste management and remediation activities”.

Size classes are determined on the basis of the number of persons employed in the enterprise:

- from 10 to 49 employed persons (small enterprises),
- from 50 to 249 employed persons (medium enterprises),
- 250 employed persons and more (large enterprises).

More detailed information on data sources used in quarterly surveys of non-financial enterprises as well as on the results calculated on the basis of these surveys and the forms of their presentation are presented in the [Methodological Handbook - Non-financial enterprises surveys](#). This Handbook is a compendium of knowledge for people using the results of surveys of non-financial enterprises, helpful in their analysis and interpretation.

Data from quarterly surveys of non-financial enterprises can also be found, among others, in the [Non-financial Enterprises Knowledge Databases](#) and in the [Local Data Bank](#) in the part of Finances of Enterprises as well as in [statistical yearbooks](#).

2. Basic definitions

Persons employed (working) include employees hired on the basis of an employment contract, i.e. labour contract, designation, appointment or election (including seasonal and temporary workers); employers and own-account workers: owners and co-owners (including contributing family workers) of units conducting economic activity (excluding company's partners not working in the company) and own-account workers; agents; outworkers; members of agricultural production cooperatives.

Total revenues (revenues from the total activity) include net revenues from sale of products, goods and materials, other operating revenues as well as financial revenues.

Total operating revenues include net revenues from sale of products, goods and materials as well as other operating revenues.

Net revenues from sale of products, goods and materials include domestic and export sale of products (finished, semi-finished products and services) manufactured by the unit together with packaging, equipment and third party services if invoiced along with products to customers, sales of goods and materials, i.e. tangible current assets purchased for resale in the same condition as received and products manufactured by the unit if they are sold in a chain of own stores along with the third-party goods, as well as amounts due for goods and materials sold regardless whether or not they have been paid.

Other operating revenues are revenues indirectly related to the unit's operating activities, in particular: profit on disposal of non-financial fixed assets, assets obtained free of charge (including donations), damages, provision reversal, revaluation of non-financial assets, revenues from social welfare activities, income from rent or lease of fixed assets or from investments in real estate and rights, extraordinary revenues.

Financial revenues are for example amounts due from dividends and profit shares, interest on loans granted, interest on term deposits, default interest, profit on disposal of financial assets, revaluation of financial assets, net foreign exchange gains.

Total costs (costs of obtaining revenues from the total activity) include costs of products, goods and materials sold, other operating and financial costs.

Costs of products, goods and materials sold include cost of products sold (i.e. basic operational costs decreased by the costs of generating benefits for the need of the unit and corrected by change in stock products) and value of goods and materials sold according to procurement or purchase prices.

Other operating costs are costs indirectly related to the unit's operating activity, in particular: loss on disposal of non-financial depreciation of leased or rented fixed assets, unplanned depreciation (impairment charges), penalties, fines, damages, receivables written down (partially) or written off (fully) as a result of bankruptcy, composition or restructuring proceeding, provisions created for certain or highly probable future liabilities (loss on economic transactions in progress), revaluation of non-financial assets, costs of maintaining social welfare facilities, donations or fixed assets transferred free of charge, extraordinary costs.

Financial costs are for example interest on bank credits and loans, interest and discount on bonds issued by the unit, default interest, loss on disposal of investments, revaluation write-offs of investment values, negative surplus exchange differences.

Financial result of the sale of products, goods and materials is the difference between the net revenues from the sale of products, goods and materials and the costs incurred to obtain them (the costs of the products, goods and materials sold).

Financial result from other operating activity is the difference between the other operating revenues and the other operating costs. From 2002 the item contained part of extraordinary events related to operating activity and from 2016 all kinds of extraordinary events related to operating activity.

Financial result from operating activity is the difference between total operating revenues and total operating costs.

Result on financial activity is the difference between the financial revenues and the financial costs.

Gross financial result is calculated as the difference of total revenues and total costs – in case of surplus of total costs over total revenues, the financial result is recorded with the sign (-).

Obligatory encumbrances on gross financial result include corporate income tax and other payments under separate regulations. The income tax affecting the financial result includes current and deferred part. The deferred part is the difference between deferred income tax provisions and deferred income tax assets (due to temporary differences between gross financial result and taxable base, resulting from differences in the time of recognition of revenue and cost in accordance with accounting regulations and tax provisions) as at the end and beginning of the reporting period.

Net financial result is a gross financial result reduced by obligatory encumbrances.

Current assets are part of unit-controlled property resources used in operating activities of a reliably determined fair value, arising from past events that will provide the unit with economic benefits in the future. They include stocks (current tangible assets) and short-term: receivables, investments and prepayments and accruals.

Stocks are tangible current assets, which include: materials – raw materials, primary and auxiliary materials, semi-finished third-party products, packaging, spare parts and waste; finished products – final articles, performed services, completed works, including construction and assembly works, research and development works, design works, geodetic and cartographic works, etc.; semi-finished products and work in progress – unfinished production, i.e. production (services, including construction works) in progress and semi-finished products of own production; goods for resale – tangible current assets acquired for resale in unchanged form; advances for deliveries.

Short-term receivables cover total receivables from deliveries and services (regardless of their payment date) and the whole or part of other receivables not included in financial assets that become due within 12 months from the balance sheet date.

Short-term investments cover short-term (current) financial assets, in particular shares, other securities, loans granted, other short-term financial assets, cash and other monetary assets and other short-term investments.

Short-term prepayments and accruals include deferred costs and deferred revenues to be settled within 12 months from the balance sheet date, as an equivalent of revenues that are not yet receivables as of the balance sheet date from the legal point of view.

Liabilities and provisions for liabilities are obligations resulting from past events to provide benefits of a reliably determined value that will result in usage of the entity's existing or future assets of the unit. They include provisions for liabilities, long-term liabilities, short-term liabilities and prepayments and accruals.

Long-term liabilities other than liabilities from deliveries and services, include liabilities which become due fully or partially more than 12 months after the balance sheet date.

Short-term liabilities (excluding special funds) include all liabilities from deliveries and services and all or part of other liabilities due within 12 months after the balance sheet date.

Cost level indicator is the relation of total costs to total revenues.

Gross sales profitability indicator is the relation of the financial result from the sale of products, goods and materials to the net revenues from the sale of products, goods and materials.

Net sale profitability indicator is the relation of the net financial result to the net revenues from sale of products, goods and materials.

Gross turnover profitability indicator is the relation of gross financial result to total revenues.

Net turnover profitability indicator is the relation of net financial result to the total revenues.

First degree financial liquidity indicator is the relation of short-term investments to short-term liabilities (excluding special funds).

Second degree financial liquidity indicator is the relation of short-term investments and short-term receivables to short-term liabilities (excluding special funds).

Third degree financial liquidity indicator is the relation of current assets of the units (stocks, short-term receivables, short-term investments and short-term prepayments and accruals) to short-term liabilities (excluding special funds).

Investment outlays are the financial or material expenditures aimed at creating new fixed assets or improving (rebuilding, enlargement, reconstruction or modernization) existing fixed capital items as well as outlays on so-called initial equipment for the investment. The investment outlays are divided into outlays on fixed assets and other outlays.

The outlays on fixed assets include expenditures on: buildings and structures (include buildings and premises as well as civil and water engineering structures), including, among others, construction and assembly works, design-cost-estimate documentations; machinery, technical equipment and tools (including instruments, movables and equipment); means of transport; others, i.e. irrigation and drainage, land quality improvements, long-term plantings, livestock (basic herd) and interest on investment credits and loans for the period of the investment implementation.

Outlays on intangible assets are expenditures on acquired property rights, classified as non-current (fixed) assets, economically viable with an anticipated useful economic life longer than a year, intended for use for the purposes of the unit. In particular, expenditures on: copyright property rights, related property rights, licenses, concessions, rights to inventions, patents, trademarks, utility models, ornamental patterns, and value equivalent to information obtained in the field of industry, commerce, science or organization (know-how), goodwill, costs of completed development work.

Enterprise with a predominant share of foreign capital is the enterprise in which the share of foreign capital in the share capital exceeds 50%.

The share of foreign capital in the share capital was calculated on the results of the statistical survey of the activity of enterprises with foreign capital.

Foreign capital is the capital contributed to the unit in the form of financial resources (cash, shares, bonds), tangible fixed assets (machines, equipment, means of transport, real estate) and intangible assets (patents, licenses, etc.) by a foreign enterprise. A foreign enterprise may be: a natural person without Polish citizenship; a legal person located abroad; an organizational unit without legal personality located abroad.

Share capital (fund) is the actual contribution of the owner or co-owner, provided to start up the economic unit at the moment of its establishment, increased later if necessary.

Due to the rounding of data, in some cases the sum of components may slightly differ from the amount given in the item "total".
