

INDEX OF AUTHORS, VOLUME 17, 2016

- Al-Kandari N.**, *Prediction of a function of misclassified binary data*
- Balcerzak A. P.**, *Quality of institutions and total factor productivity in the European Union*
- Bal-Domańska B.**, *On the relationships between smart growth and cohesion indicators in the EU countries*
- Baszczyńska A.**, *Kernel estimation of cumulative distribution function of a random variable with bounded support*
- Bhattacharjee A.**, *Bayesian accelerated failure time and its application in chemotherapy drug treatment trial*
- Breidt J.**, *Variational approximations for selecting hierarchical models of circular data in a small area estimation application*
- Burgard J. P.**, *Small area estimation in the German Census 2011*
- Chakraborty A.**, *A two-component normal mixture alternative to the Fay-Herriot model*
- Chaturvedi A.**, *Bayesian inference for state space model with panel data*
- Datta G. S.**, see under Chakraborty A.
- Dehnel G.**, *M-Estimators in Business Statistics*
- Domański Cz.**, *Edward Rosset (1897-1989) The Nestor of Polish Demographers and Statisticians*
- Dziechciarz J.**, *The identification of training needs for human capital quality improvement in Poland – a statistical approach*
- Dziechciarz-Duda M.**, see under Dziechciarz J.
- Erciulescu A. L.**, *Small area prediction under alternative model specifications*
- Estevao V. M.**, *A comparison of small area and calibration estimators via simulation*
- Fabian P.**, *Heteroscedastic discriminant analysis combined with feature selection for credit scoring*
- Fuller W., A.**, see under Erciulescu A. L.

Gabler S., see under Burgard J. P.

Ganninger M., see under Burgard J. P.

Głowicka-Wołoszyn R., *Spatial autocorrelation in assessment of financial self-sufficiency of communes of Wielkopolska province*

Gołata E., *Shift in methodology and population census quality*

Górecki T., *An extension of the classical distance correlation coefficient for multivariate functional data with applications*

Grzenda W., *Informative versus non-informative prior distributions and their impact on the accuracy of bayesian inference*

Guadarrama M., *A comparison of small area estimation methods for poverty mapping*

Gurgul H., *Calendar and seasonal effects on the size of withdrawals from ATMs managed by Euronet*

Hernandez-Stumpfhauser D., see under Breidt J.

Hidiroglou M. A., *From the Editors*; see under Estevao V. M.

Hozer-Koćmiel M., *Examining similarities in time allocation amongst European Countries*

Hudson I., *Transmuted Kumaraswamy distribution*

Jajuga K., *The XXIV Conference "Classification and Data Analysis – Theory and Applications" 14-16 September 2015, Gdańsk, Poland*

Jędrzejczak A., *Small area estimation of income under spatial SAR model*

Joshi A., see under Bhattacharjee A.

Jurek A., *The XXXIV International Conference on Multivariate Statistical Analysis, 16–18 November 2015, Łódź, Poland*

Kalton G., *From the Guest Editors*

Khan M. S., see under Hudson I.

Khetan M., *Some effective estimation procedures under non-response in two-phase successive sampling*

King R., see under Hudson I.

Kolb J.-P., see under Burgard J. P.

Kordos J., *Development of small area estimation in official statistics and Book review Microeconometrics in Business Management, 2016. By Jerzy Witold Wiśniewski*

Korter G. O., *Modelling road traffic crashes using spatial autoregressive model with additional endogenous variable*

Korzeniewski J., *New method of variable selection for binary data cluster analysis*

Kozera A., see under Głowicka-Wołoszyn R.

Kreżolek D., *The GlueVar risk measure and investor's attitudes to risk – an application to the non-ferrous metals market*

Krzyśko M., see under Górecki T.

Kubacki J., see under Jędrzejczak A.

Kubus M., *Locally regularized linear regression in the valuation of real estate*

Lahiri P., see under Al-Kandari N.

Landmesser J. M., *Decomposition of differences in income distributions using quantile regression*

Lehtonen R., see under Kalton G.

Lis Ch., see under Hozer-Koćmiel M.

Mandal A., see under Chakraborty A.

Maurya S., see under Khetan M.

Molina I., see under Guadarrama M.

Münnich R., see under Burgard J. P.

Mussini M., *On measuring income polarization: an approach based on regression trees*

Noronha V., see under Bhattacharjee A.

Okrasa W., *From the Editor*; see under Hidiroglou M. A.

Olubusoye O. E., see under Korter G. O.

Opsomer J. D., see under Breidt J.

Osaulenko O., *Quality of life and poverty in Ukraine – preliminary assessment based on the subjective well-being indicators*

Pal S. K., *A new family of estimators of the population variance using information on population variance of auxiliary variable in sample surveys*

Pandey R., see under Chaturvedi A.

- Papież M.**, *In search of hedges and safe havens in global financial markets*
- Patil V. M.**, see under Bhattacharjee A.
- Pekasiewicz D.**, *Interval estimation of higher order quantiles. Analysis of accuracy of chosen procedures*
- Pietrzak M. B.**, see under Balcerzak A. P.
- Prabhash K.**, see under Bhattacharjee A.
- Rao J. N. K.**, see under Guadarrama M.
- Ratajczak W.**, see under Górecki T.
- Salisu A. A.**, see under Korter G. O.
- Shanker R.**, *Sujatha distribution and its applications*
- Singh G. N.**, see under Khetan M.
- Singh H. P.**, see under Pal S. K.
- Skrodzka I.**, *Knowledge-based economy in the European Union – cross-country analysis*
- Smolarczyk T.**, see under Fabian P.
- Sobczak E.**, see under Bal-Domańska B.
- Stapor K.**, see under Fabian P.
- Subramani J.**, *A new median based ratio estimator for estimation of the finite population mean*
- Suder M.**, see under Gurgul H.
- Szulec A.**, *Changing mortality distribution in developed countries from 1970 to 2010: looking at averages and beyond them*
- Śmiech S.**, see under Papież M.
- Walesiak M.**, see under Jajuga K.
- Wanat S.**, see under Papież M.
- Wołyński W.**, see under Górecki T.
- Wywiał J. L.**, *Estimation of mean on the basis of conditional simple random sample*
- Zalewska E.**, see under Jurek A.
