

STATISTICS IN TRANSITION

new series

An International Journal of the Polish Statistical Association

CONTENTS

From the Editor	187
Submission information for authors	191

Sampling methods and estimation

Dihidar K., Bhattacharya M. , Estimating sensitive population proportion using a combination of binomial and hypergeometric randomized responses by direct and inverse mechanism	193
Titt E. M. , Residency Testing. Estimating the true population size of Estonia	211
Beevi N. T., Chandran C. , Efficient family of ratio-type estimators for mean estimation in successive sampling using auxiliary information on both occasions	227
Alkaya A., Ayhan Ö. H., Esin A. , Sequential data weighting procedures for combined ratio estimators in complex sample surveys	247

Research articles

Lukaszonek W. , A multidimensional and dynamised classification of Polish provinces based on selected features of higher education	271
Shanker R., Shukla K. K., Mishra A. , A three-parameter weighted Lindley distribution and its applications to model survival time	291
Karadeniz P. G., Ercan I. , Examining tests for comparing survival curves with right censored data	311
Rai P. K., Pareek S., Joshi H. , Met and unmet need for contraception: Small Area Estimation for rajasthan state of India	329

Conference reports

The XXXV International Conference on Multivariate Statistical Analysis MSA 2016 (7-9 November, 2016), Łódź, Poland (Szczepocki P., Białek, J.)	361
